

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON FEBRUARY 9, 2000 AT 1:03 P.M.

SAINT CHARLES BORROMEEO

“I am Saint Charles Borromeo. It is a privilege that The Father has given to so Many of Us Saints, and that is to speak at a time when so much is needed for mankind to more fully understand what a precious gift human life is to man.

Though human life has many facets, each facet has a purpose, a goal, to strengthen many areas of human life, because human life is faced with so many different directions, different avenues of learning, understanding and beliefs.

Today is, in many ways, the same as yesterday, and that tomorrow will be, but each day is important because each human life, in each day, has decisions to make regarding many issues; some important, some not as important as others, but nevertheless daily life registers in a special place, because of the Importance of each human being's Soul.

The degree of mentality of a human being is not the most important part of human life, although much is based on what an individual has the mentality to use, to express, and to aid others on many subjects. The Most Important Part of human life is the Soul that no one sees, and yet is evident in many ways, through one's conscience, one's understanding of what is purity over impurity in how one thinks, acts, speaks, or is example of. Purity has many dimensions, and oftentimes is abused because an individual ignores the importance of purity, and succumbs mentally, morally, physically, to what is detrimental in so many ways to the body sometimes, to the mind sometimes; but when it is detrimental in any way, it affects the Soul in degrees that a human mind cannot fathom or understand.

We oftentimes listen to men, women and children with all degrees of

intellect, all degrees of faith in themselves and their personal view of what their morals are like, not always on what the morals should be like. Most of the times the moral value of a situation, a conversation, a decision, is not the deciding factor; the decision is based on personal behavior or personal gain, thus ignoring that every human act, decision, physical or mental practice, has a responsibility to a Higher Authority than what is acceptable as human.

The world has been blessed by this Gift in which so much is instructed, because human life, with all its distractions, would not have for its Goal Sainthood if there were not the Ten Commandments to live by, or stories of how individuals became Saints by how they acted, what they practiced, and how much devotion they had to their behavior on decency, reaching for Holiness so that one day they had a Goal of Sainthood.

Today as I speak, I speak with a deep sincere love for human life, because The Father has requested so Many of Us Here with Him to instruct in Our Own Way how important human life is, and how important human behavior is in every facet of life.

I beseech you, do not act harshly, resentful, or abusive to the Soul that you are the custodian of, because it is through your Soul you will one day enjoy the Presence of The Creator. So be it.”
