## SAINT ATHANASIUS

“I am Saint Athanasius. Many times those who feel they have much, or great, or deep spiritual beliefs, it is not fact.

Spiritual beliefs, spiritual Faith, are based on sound reasoning and deliberate understanding of the importance of human life, and the Purpose for which it was created. ***Too much emphasis is placed on humanism, thus eliminating the Importance of the Connection human life has to The Divine.***

The word ‘*Divine*’ is oftentimes misused, misunderstood, even abused, because those using it do not fully understand, or comprehend, that this descriptive word can only be associated with The Father. Granted, it is oftentimes used with others, but Divine says ‘separate’ from all other human aspects of life.

Today as I speak through one voice, I speak with much concern for the lack of All that is revealed not being distributed throughout the world. There is no excuse for this, because of the systems that are available, connecting many, many places where human life resides, exists.

***The Father’s Purpose for this Gift of His Divine Love is to awaken all human beings to the association human life has, and the responsibility it bears because of the Connecting Link called the Soul.*** We oftentimes hear individuals compare their association with one or many others, saying, ‘We are soul mates.’ I could speak hours on this subject, because the human interpretation lacks the Purpose and Reality of what the word is intended to mean, when it speaks of an individual and his or her Closeness to The Divine.

There are millions of children of all ages, throughout the world, who

never hear what life is all about, and what human life has the Privilege of, the Goal of. ***The Father has given to the world a Gift of Instruction, allowing so Many Saints to speak on subjects that are given to instill the Importance of human life to a Divine Creator.***

**W**hen men and women join their lives in matrimony, it is to use their lives in the manner The Creator designed them for, to raise others to more fully understand that human life is a Gift of Divine Love, has a Purpose and a Positive Definite Goal. Human life was created a long time ago, and through time, more and more information has been delivered, regarding what human life has to look forward to at a given time.

**I**t is innate in human beings to reach for success, or to win a prize, no matter what the prize may be; so would it not be wise to see, to understand, that the Purpose for human life had for it available a Goal? I hear some say, 'Yes, but how do I know if I will reach that Goal, or what it will take me to always remember there is a Goal?'

**L**et me put it this way: Logic speaks when it says a Higher Creation Designed All There Is, and logic says everything has a goal, so human life would be in the category of reaching the Highest Goal available, because of the Purpose for which it was created, and the logic in all that human life has within it: a mind, sensitivities to so many areas in life, and the abilities to use what human life has in many capacities, in many areas, for many reasons. Is it not wise to understand that as a goal is important to man in the human way, ***then would this not set the pattern for each human life to have a Soul to be returned to The Father, to The Creator, so that the individual would have the availability to return to a Higher Plane of Living, of Understanding, beyond what the human being is capable of in the human way?***

**A**s I leave you I bless you, for you see I, too, walked the human role; I, too, questioned sometimes what role I was to play. I also questioned, would I, in how I thought, acted, become a Saint? ***Remember, I did***

SAINT ATHANASIUS

***accomplish My Goal, and I sincerely pray that all who reach a point of decision will accept The Father's Will to return to Him at a given time, one day. So be it."***
