

MOSES

“I am Moses.

There have been many requests of late, that this little one through whom All of Us speak, put into script the Details that the Commandments of The Beloved Creator has given to the world, to give to human life the Rules necessary for Sanctification of his or her Soul.

These Commandments are never to be ignored, and it is sad for me to say the conciseness in which They have been put into script is an abomination to the full meaning presented for the protection of Souls of millions, and millions, and millions, and millions, and millions of human life.

Human life has a distinction above all other living matter or things, and this distinction is seen through the mentalities, through the sensitivities, through the ability to apply to daily living, purity in actions, in thoughts, in words, in deeds, for others to recognize not just as good example, but to be able to imitate what is correct in the Eyes of The Creator.

It is not impossible for human life to obey the Commandments given at another day, at another time. The child has been requested, and I add commanded, to put into script in much detail the Commandments that were given at another time, for as I received Them I did not put Them down in such a concise form, because within me it was instilled mentally, the Full Length, the Full Degree, the Full Purpose, the Full Need of Each One, because of the Souls that would be affected by Them through an individual human being.

It is now as it was in my day, there are believers and there are disbelievers, but disbelievers have a weakness that conquers nothing. Disbelievers are weak in many areas, because of selfishness, self- love, and a lack of sound understanding regarding the importance of human life, the Purpose for which it was created, the beauty for which it was created, the Divine Love for which it was created.

Logic says to human life, The Father in creating it had a Goal for it, and His Love for this life sent to mankind, delivered to mankind, in script, the way to live the human life.

I could speak hours on end, but it is Important that What I have spoken thus far be cast upon the waters, and sent throughout the world, to awaken men, women and children to the Precious Gift of Divine Love, the Soul. Logic should tell human life, that for such a Gift as a Portion of The Creator, only logic would be expressed in how to protect this Soul for another life.

As I leave you, I bless you and I say in a language you know, and in a way you cannot mistake what I mean, 'In Nomine Patris, et Filii, et Spiritus Sancti. Amen.'"
