

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph.

When a human being is born, the infant is dependent on those who are in charge of it. From the moment of the birth, the little one is dependent in every area of life, thus causing human life to grow independently, yet dependent, on those in charge of it.

The learning stage becomes evident in the eyes, and then in small words that are learned from those with whom they live. The wording depends upon the type of speech used in the home, characterized by different forms of backgrounds and different areas of speech, understanding.

Today as I say My Words to you in a way you understand, I am fully aware that My Words will be translated into languages so that millions of other human beings will be able to read and learn from What is spoken, because the Words will be in languages based on their background, their heritage, their abilities to determine the meaning that the Words will display for them to understand.

So much has been delivered in a natural, understandable form, way, using Words that those who take the Words fully understand the meaning of, because the Words are being spoken in a place wherein the language has a name, English.

When the Words will be translated into what man calls foreign languages, they must be understood, because all people throughout the world do not speak the same language.

The world has been blessed abundantly by this Gift of The Father's Love, because before this time there was much confusion, due to the fact that people of many nationalities, backgrounds, intellects, began to gather together in different countries. The language barrier became more evident, and even those who took the time to learn the language of where they were, did not always interpret it correctly.

The time now that so much is being delivered, deliberately instructing on the importance for which human life was created, and the necessity for human beings of all backgrounds to fully understand that human life is a Gift in Divine Plan Greater than any other living matter or thing, because within each human life there is a Gift of Divine Love called the Soul. No one sees It, no one feels It, but there is a sense within each human being that they are being seen, heard, even when they are alone, no one else present.

Many would try to doubt this fact of life, but even a child instinctively feels a Presence when they are alone.

Throughout the world at this moment there are thousands and thousands and thousands and thousands of all ages of human life acting impurely, ignoring the importance of that they are being watched constantly by an Inner Understanding, an Inner Feeling, a Knowledge that what they are practicing has a judgment call at some time, somewhere, some place.

There are millions and millions and millions of Words to be spoken, instructing human beings of all ages, all degrees of intellect, all degrees of sensitivities, to what is right, what is wrong, what is moral, what is immoral, what is pure, what is impure.

The Father has given to the world a Teaching for every degree of human life, every age, every personality, nature, character, intellect, background, but It is not being sent throughout the world as It has been directed to be. It is important that those who live in far places learn about this Gift.

My next statement is difficult to say, and that is this: Much jealousy surrounds this little instrument through which so many Important Statements are delivered and put into quotes, making Them Special to those who read Them, putting an Importance on Them, emphasizing the fact that They should be noted, remembered, followed, practiced, and passed on to others, because of the Importance of Them, the Meaning of Them, the Purpose of Them.

Ask yourself: If you were born with no Soul, no intellect, but more animal-like in nature, culture, understanding, what would life be like? Would it not be difficult, have no real meaning? But you have not been born this way, you have been born to more fully understand that human life is Special, it has a Goal, a Purpose that nothing else has.

Right now as I speak, I am fully aware that thousands of impurities, morally, physically, mentally, are taking place. The Soul is the victim of each one of the individuals. What a sadness it is to see the enemy, satan, gaining so much attention when he is nothing but evil. There is no happiness where the enemy of God and man exists.

Today as I speak, I speak with deep concern, because so many men and many women have chosen to respect Humanism, advocate it, practice it, deal in it, and make compromises to please the flesh, their egos, and their associations with other human beings.

You do live in a time worse than Sodom and Gomorrah. These Words may not be understood in the fullness they are, because it might be difficult for those who live now to fully understand what a dreadful, horrible, unrealistic, demonic time that was, using all that was impure, relishing in the practice of it, ignoring totally the importance of why human life was created, and the Soul that each human being was the custodian of, and the fact that The Father gave to human life a Portion of Himself to be returned for All Eternity in a Place indescribable, for human life, through their Soul, to live Forever.

As I leave you, I beseech you, distribute All that has been delivered, and do it in places even when they resist. Find another way in, because no Soul is unimportant to Our Creator.

As I leave you, I want you to understand, living the human life as man is a Gift of Divine Love, and the Soul is an Ultimate Gift of Divine Love, giving Hope to a future to return to The Father Forever. So be it.”
