

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

Today The Father smiles and says: ‘Those who love Me, spread My Will and My Way, are blessed abundantly. Each Soul of those who speak My Name with Love, and desire to please Me above all things, causes the Soul to show in a Bright Light My Way.’

Throughout the world, millions of human beings are starving spiritually for more knowledge of all that is important for their whole being, not just for their physical, because it is innate in a human being to desire to have the Support mentally, morally, physically, that they know is evident in a Supreme Power they cannot see.

It will be a long time before the human minds of mankind will fully understand what a Precious Gift of Divine Love The Father has handed through one voice, one small woman, in obedience to The Father’s Will for all time. There are many men, women and children who are not being told about the importance of their lives, because of the Soul that they are the custodian of, and have been since the moment of their conception as a human life.

There is no human being alive that can instruct in a full degree of value, of truth, of knowledge, regarding the Importance of human beings bearing a Soul, a Portion of The Creator, God, giving to this life a Connecting Link that nothing else has ever been, ever had the privilege to be the custodian of.

So much can be spoken on what a Treasure the Soul is, because the Soul oftentimes uses Its Own Power to encourage an individual to choose purity over impurity, justice over injustice, love over hate. The Soul is active in many ways, always allowing the individual the privilege of decision, because it is through this privilege that each human life will earn the Goal The Father has set for the Soul they bore in the human life.

Many times We speak in a degree of length that perhaps could be longer, but the Subject Matter is so Important that What is spoken through this Gift of The Father's Love determines the length of What We will speak to be written, for others to read, to absorb, and to remember.

As I leave you I beseech you, do not hold All that has been delivered in places that no one can reach, because each human being is gifted with a different degree of curiosity, a different degree of ability to comprehend an important subject, and a different degree of hope in the purpose for which they live. So be it."
