

REVELATION DELIVERED THROUGH FRANCES M. KLUG  
ON APRIL 10, 2000 AT 1:33 P.M.

## SAINT FRANCIS OF ASSISI

**I** am Saint Francis of Assisi. In the beginning of the time when The Son Of The Father walked the earth, as He talked, as He instructed in so many ways, always taking into consideration the type of individuals, their degree of mentality, so the Words would suit them personally.

**A**t that time the world was blessed similar to what it is now. The human mind, the human ability to understand what is morally sound, what is evil, what is practical, has a dimension beyond what human beings fully understand it to be.

**W**hen a child is learning on simple facts, such as how they must do things, how they must act, the process of the mind is important to each individual child. Some learn faster than others, some forget because they become distracted on other things.

**A**t this time throughout the world, mankind feels highly educated, superior in knowledge, and definitely feels that he or she can discern facts faster than anyone else, because of the modern attitude and time they feel they live in, having experienced certain things.

**H**ow many men, women and children of all ages use a small amount of time each night to think about what they accomplished during the day, how they handled what decisions they were exposed to; also, did morality ever enter into a decision, because if it did, did they remember it would affect their Soul on what decision they would make at that particular time?

**T**hough the Commandments given to Moses are in such a

concise format now, the little one through whom We All speak has been instructed to put Them into print, in a fuller degree, a manner more understandable, and better able for individuals of all ages to be better able to decide, if they were to die in a moments notice, what condition would their Soul be in according to the Commandments of The Creator?

***As I bless you, I also alert you, there is a time of Judgment and there is a time in which each Soul will be spoken to by The Father in a Personal Way, because, you see, the Soul is a Portion of The Creator and will be returned to Him at a given time, on a given day. So be it.”***
