

SAINT PEREGRINE

“I am Saint Peregrine.

It is sad to hear so many men, women, and even children, finding it difficult to believe that All of Us Saints are so close to human beings.

Throughout the world there is so much desecration, mentally, physically, against what is moral, what is valuable to the Soul, what is worthwhile to the mind, the body.

As I speak to you at this moment, the violations against the flesh are so numerous the total would shock you; the number is insurmountable. There are many places at this moment, where you live and other countries, that there is no belief that the Soul is a victim of human life, and that as each sin is committed, whether it be venial or mortal, has no responsibility to it because it is human to do the things human beings do. And yet, if someone's hand is bleeding profusely, there is much worry, much concern, and many thoughts run through the heads of those present, desiring for the situation to be taken care of; and yet, these same individuals could be standing in the most vile, contemptible, pornographic place and ignore what would be happening to them emotionally, mentally, spiritually, physically.

Throughout the world there is very little being taught on the Commandments that were given a long time ago, and yet these should be the Rules of Life for every age group. The fact perhaps that they were broken down into such a concise manner, is the permission for most individuals to not see them in their fullest measure, thus allowing permission of some very vile acts to be acceptable.

**T**his Gift of The Father's, allowing so much to be put into script, allowing so Many of Us Saints to speak openly, clearly, on Important Issues, helping men, women and children to see that they are the custodian of a Portion of The Creator, and that it is important to have purity in their thoughts, in their will, in their actions, and in every act that others besides themselves will be exposed to.

**H**uman life is born with responsibilities. It is important to understand that to take care of oneself is a responsibility; to take care of others, more responsibility, but not limit one's actions, deeds to a minute situation or point of concern, but to look at every angle that is marred by one's actions, one's example. It is much easier to think purely, and it radiates in one's life to all they meet, everything they do, everything they say. It is easy to feel a difference when impurities of the mind, the body, the words, are foul, indecent, abusive, and please only the enemy of God and man.

**S**o little attention is given to the Importance of the Presence of The Creator at all times. I ask you: 'What causes this? What eliminates a Higher Being in Control, in how individuals ignore this obvious fact and accept, practice, promote only impurities, indecencies, immoralities to lengthy degrees?'

***The Father has given to the world a Gift of His Divine Love, bearing the Name of His Holy Spirit. Now logic should be evident, that if The Beloved Saint Joseph is The Holy Spirit, then would He not be available at all times in every act, word, deed, thought, that human beings use in their daily lives?***

**A**s I leave you, I beseech you to never ignore the Presence of The Holy Trinity, because there is no time, no area of life, that They are not present.

**T**he reason that this Particular Gift of Divine Love, bearing the

Name of The Beloved Saint Joseph, has been given to the world, is to **'awaken'** mankind of all degrees of intellect, all degrees of belief in a Divine Creator. Some might say, 'Awaken?' Yes, the word is **'awaken'**, because it is as though human beings have fallen into a lethargy that consists only of humanistic values, practices, understanding, moods, and of course, destined to find one day that Sainthood may be postponed until the debts are paid, God's Way. So be it."
