

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON MAY 10, 2000 AT 1:12 P.M.

SAINT IGNATIUS LOYOLA

I am Saint Ignatius Loyola.

My time with you today is to encourage you and all who will read these Words, to more fully understand the importance of morality in man. So little emphasis is placed on this one phase of human life that can determine the Goal for the Soul of the individual.

Today as I speak to you, I have the ability to see things beyond where you are, and if I were to show you what I see, it is sad for me to say, you might vomit because of not just infidelity, but abuses of the body that is worse than any word description I would dare to say.

I show the little one through whom I speak, a small portion of what I have just said. Her body screams with pain, because she is aware that not even an animal would act this way.

You do live in a time that man calls 'progress', but this word only applies to what mankind feels progress to be, monetary mainly, and then infidelity, that if one were to see all that occurs in a day's time, you would want to vomit trying to make yourself clean. Just being exposed to the sight causes one's Soul to feel not just ugly, not just unclean, but fearful, because of the satanic being. It is difficult for human beings to accept that there exists a place where all is evil, all is hate, all is unclean.

It is important that all that has been delivered through this Gift Of The Father's Love be spread throughout the world, and put into languages that speak clearly the Importance of the Soul of each human being.

The instruction on this subject is minute, rarely thought about, because so much hypocrisy is evident in all areas of life, and so little instruction is being given on the fact that there is a Soul involved in every human life, that will be the victim of all that has occurred unclean.

Some may ask: 'How can my actions, if they are normal, natural, be called unclean? If it were so bad to do certain things, why was I given a free will to act according to how I decided it to be?' This statement, of course, is how many justify all impurities of the mind, of the body, thus ignoring the Soul, because they cannot see It, yet their conscience tells them they are wrong, but their conscience does not speak back to them, so justification is acceptable easily.

As I leave you, I beseech you to spread all the Words that have been delivered, and hopefully Those yet to come. Human life has been given the ability to know right from wrong, good from evil. This responsibility must be seen because, you see, the Soul is the victim, yes, the 'Victim Soul' for All Eternity. So be it."
