

SAINT AGNES

**“I** am Saint Agnes.

**T**hroughout the world, there are so many people of all ages using impure example to the young. Children are not being instructed on the Importance of what God is all about, what Heaven is all about, what Truth is all about, and that human beings have a Goal that no other living matter or thing is capable of, capable to achieve, even capable to understand.

**A**s We look into the lives of many of the young in age, We see much rebellion, little direction that is feasible to helping them understand that, as human beings, they have a Goal to reach for All Eternity. This should not be difficult to explain to them or for them to understand, because in daily life they are often forced to make decisions regarding what is right, what is wrong for them to do, to partake in, or even to be the instigators of. This innate ability is an important part of human life and must be addressed in its full purpose, reason, because human life has a Goal that no other living matter or thing is gifted with.

**A**s I leave you today, I hope that you will be example of what I have just spoken about, because it is through your example that others will relate to how to approach subjects that need the right decision, the proper decision, the moral decision.

**C**hildren are not being instructed on the most important facet of human behavior, and that is morality. So much is taken for granted and so much ignored, thus eliminating that human life has the ability to make decisions based on sound moral values, sound moral standards; also, pleasing to God.

**A**s I leave you, I beseech you: Do not allow yourselves to forget that as you walk, you are imitated in many ways that you are not aware of, or do not feel the presence of.

**T**oday, as I speak to you, it is important for you to be able to be example of all that is what God Wills for the Soul, because you are example in everything you say, you do, whether you are aware of being example at that time or not. So be it.”
