

SAINT THOMAS MORE

In The Father's Creation of human life, He instilled several ways of behavior that other living matter or things are not capable of doing, being a part of, acting out, or thinking. Men, women and children of all backgrounds of life are the custodians of a Portion that is closely associated with, connected to The Divine. This makes human life different than all other living matter or things.

The human intellect is designed to be able to make decisions on a multiple amount of subjects that no other living matter or thing is capable of doing. This gift alone should tell men, women and children that this Gift of Divine Love bears much responsibility, because of how it affects everything that a human being thinks, imagines, accepts or does.

Very little is being instructed on this important issue, but nonetheless, this issue exists, and must be looked upon as a connecting link to that Inner Gift of Divine Love called the Soul, because the Soul is a recipient of all that an individual uses, practices, is involved with, or initiates.

Throughout the world today there is so little emphasis on the Soul being a Portion of The Creator, and is that Portion of human life that will be returned to The Creator, either to be punished or to be a Saint. Reparation in human life is important. That is why there are so many man-made rules based on what is just, what is unjust; what is truth, what is false; what is moral, what is immoral.

This statement alone should help human beings of all ages to understand, that as human life is given the abilities that include all of the above subjects and degrees in which they are considered, would it not be important then for human beings of all ages to see the

value of what is right over wrong, pure over impure?

There are very little, very few, dedicated people instructing others on the fact that human life is born with a Soul. Some do not dare to attempt the subject, because they have never seen a Soul, and cannot talk about It in the manner they have heard about It.

First of all, let me say this: Was not mankind born with a conscience, born with a sense of what is moral, what is immoral, what is truth, what is untruth, what is happy over what is unhappy? I could use many words in this list. It would take pages for these words, because mankind has been gifted with the ability to know what is pure over what is impure, what is just over what is unjust, what is vile, what is contemptible, but so few now even think about what their life reflects in their daily association with those close to them or those they meet casually.

My Words could write books on this subject. My Reasons are Important, but I beseech those who will read All that has been delivered through this Gift of The Father's Love, bearing the Name of The Beloved Saint Joseph, to not just read Words, but to value the Purpose in each Word, the Direction in each Word, the Hope in each Word, but also what a Treasured Gift of Divine Love this Miracle is to all ages, all backgrounds, all races, all colors, all creeds, because human life is a Gift of Divine Love, and it has been given so much to base what is morally strong, correct, against what is immoral, indecent, improper, impure.

It does not take a great deal of wisdom to understand All that has been delivered. It just takes common sense and an innate understanding that a Greater Living Matter had to be The Creator. It could not have been from a human source.

I bless you as I leave you at this point in time, and I beseech
