

REVELATION DELIVERED THROUGH FRANCES M. KLUG

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Ask yourself, what does the word ‘Christianity’ mean to you? Many differences in opinion can be connected to this word, due to the indifference that so many individuals, men, women and children respond to the word ‘Christianity’.

We hear some say: ‘I believe there is an Ultimate Creator. By Creator I mean Someone Who has the ability to hold all things in place, such as the Universe and other things such as this, but The Creator is limited because The Creator does not procreate; that is up to human life, human beings.’

Interpretations, in so many ways, are driven by an innate lack of full understanding of the Purpose for which human life was created. There are so many diversified calculations based on imagination, or mere human consideration.

Let me speak words, and please follow My Words in the context They are meant to be. Human life was created and is a Gift of Divine Love, because of so many aspects that are contained in human life that make human life have Purpose, Goal; first, the ability to have an intellect, and in most cases, unlimited in its value, because each human being has the ability to learn in great detail on subjects that no other living matter or thing is capable of.

My presence today is of Great Importance, because The Father has requested me to awaken the intellects of all living human beings, that human life has a Goal beyond what anything human can be reached for; the Goal is for the Soul, though unseen, is evident,

because each human being is aware that human life is different than all other living matter or things, and human life innately reaches for goals, thus showing to human life, in a silent manner, way, degree, that human life is special and must comply with a Higher Being in the order of things, in the acceptance of things, and in the knowledge that there is a Goal to human life that the human way cannot totally perceive.

As I speak today My Words are different than I usually say, but there will be some who will read Them and find Great Worth, because all intellects are attracted to different forms of information, and different ideas in how to obtain or attain goals that are obviously present. The Words I speak, some in reading Them might find difficult, but I beseech you to not ignore Them because, do not forget, ***human life is Gifted with a Soul, and this Gift is Ultimate in Being, in Existence, in Value, and It belongs to The Creator Of All Things.***

Each human life, in being given a Soul, connects the Soul to The Divine in a manner, way that is obvious, and yet cannot be seen, because the Soul makes the individual think on a higher plane, of the importance of human life, and that it is the only living matter that has the ability to seek a Higher State, thus being a Reunion with The Creator. So be it."
