

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON JULY 6, 2000 AT 1:10 P.M.

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

The Father has given to mankind a Gift Greater than the human mind can comprehend It to be, because in this Gift He has allowed so Many Saints to speak.

Someone might ask, ‘Why do the Saints speak?’ It is important for men, women and children of all ages, all cultures, all degrees of mentalities, to understand what a Precious Gift human life is to man. There is no other creation of life in the same category, or same degree of intellect, understanding, or Purpose for life.

The Father has given to mankind a Gift beyond what the human mind can truly comprehend, and that is to allow so much to be said, and to be written as It is being said, for the Purpose for which human life was created, and that is to one day return the Soul, that Portion of The Creator, to from Where It Came.

There are so many ways to describe this Gift, so many ways to associate It with how human life thinks, performs, expects a return for certain things they do, they give. When this Gift of Divine Love, bearing the Name of The Beloved Saint Joseph, was announced to one individual human being, there was no question, no doubt, because this Beloved One Who in Essence is Truly The Holy Spirit Of The Creator, chose this little one to be able to work in a manner and a way to save Souls, by being obedient to The Will Of God, through All the Saints Here in the Heavens.

Small children should be instructed, because they are not receiving the important words that will give them the strength to

more fully understand that, as they grow into adulthood, they have always been Close to The Creator through their Soul, and now as they reach adulthood, their responsibilities are greater, and even more in demand.

In The Father's Love for human beings, human life, He has never left this Gift of His Divine Love without some help, some knowledge, some instincts, some abilities, to feel that there had to be a Superior Power that existed. Even if mankind were to go back thousands of years to the first creations, they instinctively knew right from wrong; perhaps did not respond in the same manner, way, that human life does now, but there was an instinct of understanding in each of them.

The beginning of life, human life, was such a long time ago, so it is important for those who are now living at this time, to more fully understand the responsibilities human life has as man, to The Creator of All.

We hear so many individuals, some highly learned individuals, some with very little formal learning, and yet they sometimes know or feel, or are more sensitive to those who have read books upon books upon books, and feel very learned in what they perceive, on many subjects, to be totally facts.

Granting, human life has progressed in many facets of experimentations, of progress, of learning, but when it comes to the point where they must make a decision, moral over immoral, for the Soul they are the custodian of, they do not always see it in the full concept of what effect it will have on that Inner Portion of them, their Soul.

Ask yourself: In every decision you make, do you think of your Soul being the recipient of your decision? Do you instruct

the young to think of their Soul in every decision they make, or is the Soul an Entity, though obviously there, is ignored, forgotten, eliminated, because It cannot be seen with the human eye?

So much Love has been passed through this Gift Of The Father's Love, bearing the Name of The Beloved Holy Spirit of The Creator, Saint Joseph. The reason for this Name is obvious because, in the human way, it was much easier to associate with a living human being, whether it be on internal terms or external terms.

As I leave you today, I beseech you to fully accept the responsibility for thousands and thousands and thousands of Souls you will never meet, and they will never meet you, but through All that has been delivered, has been put into script, will be the one thing that will open the door, the sight, the mind, to more fully understand that human life was a Gift of Divine Love from the beginning of its inception, because in human life, it was created to the Image and Likeness of The Creator.

Naturally, it was not the same as if you looked in the mirror and looked at yourself and said: 'The Creator looks like me.' That is not so. But He did give to the world a Son Who walked the path of the human way, and was crucified by the evil ones because of the Goodness He represented, and the enemy of God and man showed by killing Him, the jealousy that evil has in its very existence.

Logic must tell you The Son of God, in the form of man, was only given in that manner, way, to allow a Lesson of Great Degree to be followed through the times that mankind would be able to learn a Lesson of Great Importance, not just reflecting the evil of the enemy of God and man, but showing the jealousy that it thrives on, resisting totally all that is good, because The Father in His Love for the creation of human life, gave to human life a Portion of Himself to live with Him Forever. So be it."
