

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON JULY 11, 2000 AT 2:43 P.M.

“The world has been blessed in so many ways by and through a Gift of Divine Love.

This Gift, though It passes through one small voice, is to be passed throughout the world, so that all human beings of all races, all colors, all creeds, will benefit from All that has been spoken regarding what the human mind, human body is the custodian of, and that, of course, is that Special Gift, the Soul.

We oftentimes hear some individuals ask: ‘What is a Soul? I cannot see It, I cannot feel It, and yet you tell me I am the custodian of It, and through It I will be remembered in several ways.’

Today as I speak through one small voice, it is to encourage human beings of all ages, all degrees of intellect, to understand that the body that each one is conceived with is important, because in it exists a mind, and in this mind each individual has the ability to return to The Father in the manner He Wills them to, and that is to return to Him that Portion of human life that cannot be seen, cannot be felt, but basically is a Portion that is to remain Forever, For All Time To Come.

Children are not being instructed on the Importance of this Portion of human life. There is much denial in so-called ‘high places’ of spiritual understanding, denial that this Portion of human life exists, denial that each human being can one day be remembered through this Portion, because this, as a Portion of The Creator, is beyond human understanding.

So much has been delivered through this Gift of Divine Love that has handed to mankind, information on fact that nothing else could possibly know of or fully understand, but the Soul in each

human being is gifted with the ability to understand that human life has a Purpose beyond all other living things or matter, and It is this Portion of human life that encourages an individual to be mindful that there is a Goal for a Portion of them that will give Great Happiness, Joy, Hope, Contentment, so that when life ends in the physical form it is not over; it will live on and through that Portion that cannot be seen at this time, but in some sense of justice, of sensitivity in the human mind, a human being is conscious that there is more to life than what he or she partakes in, or consists of.

My Words for some will be strong, for others there may be doubts; but I beseech you, I plead with you, to remember, through your sensitive understanding, that human life has a Goal. Be assured it has, and The Father Wills you to live on Forever through that Goal called your Soul. So be it.”
