

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON AUGUST 11, 2000 AT 12:51 P.M.

SAINT STANISLAUS

“I am Saint Stanislaus.

You do live in a time of impurities of the mind and the body in such an abundant form; also, on many areas of life always looked upon as natural actions, thoughts to the human mind, totally oblivious, or I should say, purposely oblivious to what effects these things have on one's Soul.

We often hear: 'If I truly had a Soul, wouldn't I see it or feel it?' Do you feel the blood flowing through your veins every moment of every day? Of course not, but it is there, isn't it, and you should thank God for It. The Soul is constantly present in your being every moment since your conception, until The Father releases It from you at a particular time of some day.

It is sad to hear children ask questions and receive no positive answers on the right or the wrong, the truth or the untruth, regarding their emotions, their abilities, their conscience, their future, after the human side no longer exists.

I will make My Words short, because I want What I have already spoken to be looked upon as Important, because It is Important.

So much emphasis is put on material things, foolish things, with total ignoring that within each human being there is an Entity of Divine Love Present at all times, and this should always be looked upon, looked at as the Purpose, the Reason that each decision made by the human mind should take in account that this Presence is a Soul, is a Portion of The Creator, and is to be returned to Him in a Pure State as It was once given
