SAINT STANISLAUS

“I am Saint Stanislaus. The world has been blessed in a greater degree than mankind can fully understand.

The Father, in His Love for this Creation of His, has given a Gift of His Divine Love, openly instructing in many ways the Importance of this Gift, the Goal for this Gift, and the Love of Him that is in this Gift.

Though it is difficult for many men, women and children to fully understand the importance of human life, and that it has a Goal beyond what anything else has, We see all ages look at a diamond and feel the worth of it, the importance of it, the beauty of it, especially when it has facets that show when light is upon it.

Each living human being should picture their Soul as a diamond, and how in the Eyes Of The Creator Of All Things the Soul glows according to the individual in whom it was placed at the moment of conception. Every facet of the diamond relates to human actions, abilities, but the greatest Light comes from an individual's personal association, love for The Father Who Created All Things.

These Words are different than have been spoken before, but it is important that every human life fully understand what a Great Gift of Divine Love he or she is the custodian of.

Light is important to human beings. When it is dark they desire light to show, so they can participate more in all that is there. Light also gives strength, safety, purpose.

Today is another day in man's life, and to many it is happy, and to many it is sad, and too many men, women and children take it for granted it is just another day to cope with, and their feeling is 'it will pass'. ***My Words on this are: 'Did you on this day remember to say a prayer of thanksgiving for the day? Did you ask for help in any way, showing your trust in The Creator Of All Things, or to a Saint?'***

It is important that children be instructed to not allow one day to go by, to pass, without remembering that to be in the human life is a Gift Of Divine Love, and it is the only living matter that is closely associated with The Divine, has a Purpose, has a Goal, like no other thing created has.

Some might say: 'Look at how bright the sun is. Is that not more important than human life? And what about the moon? It glows in its own way every night somewhere throughout the world. I cannot see my Soul.' ***Remember one thing, your Soul is a Living Portion of you, and It does reflect to The Father Who It is a Portion of. You would not want your Soul lighting up in different degrees to everyone you meet, because each Soul is a Personal Gift to each human being born, a Gift of Divine Love that nothing else has.***

Hopefully, you will remember some of what I have spoken, because within you, in the human form, ***you are the custodian of a Gift of Light that basically is a Portion of The Creator, and must be taken care of through your morals, your kindnesses, and your love for The Holy Trinity for allowing you to be born a human being.***
So be it."
