

SAINT BERNADETTE

I am Saint Bernadette.

It is important that children of all ages understand the importance of human life, why it was created, and what it contains. It contains a Gift of Divine Love Greater than any physical gift a human being can receive.

The Soul, as a Portion of The Creator, gives to human life values, understanding, and the realization of morals that are necessary, due to the fact that human life is the custodian of a Portion of The Creator called the Soul. The Soul is never seen, but many times It is felt physically, mentally, through an individual's conscience or the understanding a human being has of how it is to please God, and how terrible it is to displease God.

It is innate in human life to know what is morally sound, pure, just, right, over and above what is immoral, thus responding to decisions in every facet of life that are impure, thus pleasing the enemy more than The Divine Being Who has Created All There Is, thus giving to human life so many variations in life, making human life, in some ways, free to choose.

An animal does not have a Soul, so the animal uses what its background, what its heritage allows it to do. It does not have the insight or the sensitivity to judge what is pure over impure, right over wrong.

It is important that human life of all degrees of intellect thank The Father many times for this Gift of Divine Love that constantly

instructs on what human life is capable of, and all the benefits it is given at the moment of conception. The very learning process that human life has available to it is a Gift beyond what any other living matter or thing has.

All of Heaven watches over this Miracle, because through It They are given the opportunity to help Souls be returned to The Creator. That is why so Many from Here speak.

As I leave you, I bless you and I say, 'Every place you go, every step you take, every move you make, your Soul accompanies you.' So be it.”
