

SAINT PETER

I am Saint Peter. In the time we all walked with The Holy One, Each Word He spoke was not just instilled into us, into our memory, but It left a Mark of Importance, encouraging us to deliver What was spoken, ***because of the Importance of the Souls of millions of human beings, and that no human being is born without a Portion of The Creator within them.***

I hear many ask, 'What is a Soul? I cannot see It, nor do I feel It.' A Soul, in many ways, is an Unseen Portion of human life; also, It is not connected as all the parts of human life are. It is the ability in the human mind to understand that they are never alone in the way of man. There is always Something within them, giving them strength, hope, endurance, and a feeling that they belong to an Important Plan.

The world has been blessed by this Gift, wherein so Many Saints have been chosen to instruct on many Subjects, the Importance of human life, the Reason for which it was designed and created.

First of all, the human mind has the capability of having an insight into a more lengthy understanding and degree of a subject than any other living matter or thing. The human mind has the capability to be able to perceive what is moral, what is immoral; what is just, what is unjust; what is cruel over what is demonically oriented.

I could speak hours on this Subject. It is Important that those who write My Words see that All Words that have thus far been delivered are passed throughout the world in all languages, never leaving another human being without the knowledge of the

Importance of human life and the Goal for which it is created to reach.

As I leave you, I bless you with the courage and the strength to help others become Great Saints. This should be your Goal. Help others to have the same Goal. It is worth the time and the effort that you will one day see when you face The Father for All Eternity. So be it.”
