

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. There are so many issues I desire to speak upon because of the importance of human life, because of the Soul that human life is the custodian of from the moment of conception until the last breath of human life exists.

Human life is a privilege because through it, it is given so many opportunities to address human life as the foundation for the Goal for the Soul that human life is the custodian of, in every human being born.

As I speak today, it is to give you strength to be example in all you do, you say, you practice, because as example you instruct others in ways you do not understand or that you are aware of. Sometimes the smallest act of kindness, generosity or an open expression of hope develops into the others who are present, whether it be one or many, that within you, you have a strength beyond what is normal, and it is obviously a strength in understanding that there is a Supreme Power that all human beings are subject to.

The creation of human life is simple, and it is important that each day be seen toward a Goal to one day reach the Ultimate Source of Creation Face to face, an area available to all who value purity of mind, giving to the Soul its rightful place.

It is sad when individuals are generous for the wrong reason, sometimes an impure reason, sometimes just to get attention. Human life has so many serious aspects and there is no human life without them, no matter what condition the mind is obviously in, because it is innate in human life to feel good

about something, sad about something, or hurt by something, no matter what the mentality openly expresses.

As I speak these Words to you, the number of Saints Who surround Me are numberless, or I could say numerous because, you see, human life is above all other creations, based on the Goal for which human life was and is created, and that is to return to The Creator a Portion of It, a Gift of Divine Love instilled in it.

In human life most men, women and children feel they must repay something that they have borrowed or used. It is a subconscious understanding that human life has the same thing wherein the Soul is the recipient of all that one does, says, thinks, uses. Don't look at things unrealistically; look at them in a logical format that is so obvious if one would but look at the importance of how one thinks, responds, and uses occasions, intentions, intellect, to capture the full meaning of more than what is obvious.

It is sad when We see individuals place all their attention on what occurs in a daily routine. They become so adjusted to the routine that they ignore what is open, available for them to see beyond what routine offers. I do not say order is wrong, but I do say, 'Look beyond the order that you have set for your life; look to a future that allows you the privilege to please The Creator, and make your point that one day you will return to The Creator, a Saint.'

At this point your work will continue, because it is common knowledge that when you pray to the Saints you automatically expect Their Aid, Their Help, Their Intercession.

My Words should be passed throughout the world, because

OUR HEAVENLY MOTHER

it is sad to see so much emphasis on one spot in thinking, one area in thinking, all in a humanistic evaluation, ignoring totally how Generous The Creator is, to give to human life so many areas to grow in, and to become Great Saints. So be it.”
