

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

Immorality is present throughout the world. We hear some individuals try to justify all sins against the flesh, against what is vile, contemptible, in many subjects of life, many areas of life.

Even though there are many so-called religious edifices throughout the world, there is very little understanding of Who is supposed to be Honored in these places. So many things have become so humanistic, even vile in their practice; also monetary in their desire to collect all that is monetary in value, rather than spiritual in concept.

Children are not being instructed, or they are not being shown the necessity for purity in every area of life. The example they are receiving many times, by those they love, is contemptible, erratic, vile.

The Father has given to the world, through one voice, so many important things to think about and to practice, because of the Soul that each human being is the custodian of. When this subject comes up, it is passed over very easily, quickly, due to the fact that there is a lack of conscious understanding regarding the importance of one's conscience playing an important part in how an individual will be judged at a particular time, by The Creator of human life and all things.

Men, women and children shout justice when it pertains to something material or something that they desire to be part of, but I ask you, ***'What is justice when one sins violently against the***

Commandments of the One Who created them?'

I could deliver Volumes of Words on this subject, because it is true you do live in a time where sin is acceptable, and vile actions are practiced in a manner and a way that only the enemy of The Creator would want to see you do and say.

The world has been given a Beautiful Gift of Divine Love, Personal Instruction on all facets of human life, to be seen for the purpose of them, the Goal for which human life was created.

I, and All the Saints in Heaven, shout to every living human being, ***'Stop what you are doing, and remember you are the custodian of a Portion of The Creator. Take care of It, because at a time when you will have to return It, you will be held responsible for the condition It is in, and your judgment will be accountable in many ways.'*** This may be difficult for some to believe and even understand, but nevertheless, in the human way you have been instructed how to vision things in a moral plan.

I could speak hours, because as We see the world today, there is so much vile, contemptible thoughts, words, actions, that are degrading to the Soul that you will stand in judgment for, on a given day. So be it."
