

SAINT THERESE OF LISIEUX

“I am Saint Therese of Lisieux.

The very fact that human life instinctively desires to reach goals on many subjects, in many ways, should tell the human mind that life itself has a Goal, and should be looked into because of the importance a goal usually reflects when it is for good, for progress, for reason, that gives to the individual not just importance, but something to look forward to.

Today as I speak My Words, as all the Words that have flowed through this small voice are Words not just of encouragement, but Words of Direction, to give each individual human being why they were created, and the Goal for which The Father created them. Without a Goal life would be empty, and there would be no reason to have sound moral standards, or to have education to help the mind, in many ways, become more alert to all the advantages that human life has available to it.

The world has been blessed many times through centuries, and mankind should be more advanced in sound spiritual values and realization, than it has. To date there are millions of human beings who do not realize, or try to understand, that as a human being there is more to life to look forward to, even though it cannot be seen for its Great Worth at the present time.

Children are being neglected because they are not being instructed on the Importance of why they were born, and the Goal that they, as an individual, have the privilege to reach. ***The Goal is not a myth, It Is Fact. The Father's Will is to give to each one born a Greater Life, not understandable to the human mind, but***

a Life beyond what human life is capable of.

It is difficult for some individuals to fathom something beyond what they already are a part of, but it is important, as each individual is given the privilege to use his or her mind to learn more, and to become adjusted to important issues that are helpful in many ways, each human being should see the fact, the logic, the truth, that human life, though the physical may no longer exist, there is a Portion within them that will bear their name in another way, and it is a time to be looked forward to, because it will be unlike the human efforts, decisions, and all that a human being endures.

Today as I speak, My Words must be seen for the Importance They are, because The Father Wills it to be, that mankind of all ages, all degrees of mentality understand that though the physical no longer breathes, there is a Portion within them that lives forever.
So be it.”
