SAINT CATHERINE OF SIENA

“**T**here are Many present Here with this little one today. She looks at Each of Us and asks: ‘What are You going to say?’ We All smile, for Our Presence to her is as natural to her as your presence is to her.

I will give you the Names of a Few standing Here, All smiling at the little one’s remark, because to her Our Presence is personal, important, and in many ways, endearing.

I am Saint Catherine of Siena.

Without the written word so many important subjects would never be seen as their worth, or in their worth, or by their worth. Conversation oftentimes has the subject on important events, issues, concerns, but unless something is put into script, much of the detail is lost into memory, and does not always show its full worth.

In The Father’s Love for the creation of human life, It was the Greatest Gift that He could give to human life. The reason for this Gift is because human life bears a Portion of The Creator from the moment of conception; It is called the Soul.

We hear so many talk about life, talk about death, but rarely do We hear that when the human life is taken the Soul remains, and the Soul is to The Heavenly Father, a Portion of the one in whom It was placed by Him at the moment of conception.

There are millions of words that men, women and children could learn so much about The Father's Love, His Will and, of course, what is waiting for the Souls of every human being at a given time. Children throughout the world are not being instructed on the importance of everything they do, say, think, practice. There are so few so-called teachers, instructors, basically believers in the importance of human life.

Human life was designed with so many, what man would call assets, that nothing else born is gifted with; first of all, the mind; and a very important part for all of the individual's thoughts, deeds, words, actions, cover a very important portion, never truly seen, rarely felt; it's called a conscience. And then too, there is another Portion of human life available every moment, since the moment of conception, and That is the Soul that The Father places within the conception. That is why human conception is so important, and should never be abused in any form.

Without the Soul, human life would be like other living things: no conscience, no true sensitivity valuable in many areas of life, and definitely not a Divine Goal.

To speak these Words comes easy, for Truth is easy to speak, Divine Love is easy to express, and protection of all a human being is all about has a strength in it that nothing else has.

So many Saints Here in the Heavens are ready to speak every moment of the day. The Father smiles at this, because it is through Him, and only Him, that permission is given. ***His smile is because the Saints All want to protect every living human being, and want them to realize that there is a Soul that they must keep intact because It is a Portion of The Creator, and must never allow It to be marred in any way, for any degree, for any reason.***

My Words to you today are Words of deep love for human life, and the importance that each human being must understand there is a Goal to reach, and it is based on Divine Plan, so do not allow anything or anyone to lead you the wrong way, because it is only a sadness to see the evil one become a part of any individual, because in this sad situation the Soul pays a great price, ***due to the fact that the Soul wants to return to, from Where It Came, representing the one in whom It was placed at a time when The Father Willed It to give strength to the individual, and reminded the Soul He wanted It back.*** So be it.”
