

SAINT CATHERINE OF SIENA

I am Saint Catherine of Siena.

This Gift The Father has given to all of human life throughout the world should be translated in many languages, of course, in its Correct Wording, Correct Meaning, because of the Importance of Each Word.

As Each of Us Saints speak through one small voice, How We speak shows in how she determines to say the Words, because it is Our Manner of doing It, in using her voice, that tells those present Our Intentions, and How We feel about a particular subject.

Throughout the world, men, women and children are looking for success. The Greatest Success in human life is to become a Saint. We hear some say, 'Will my body be there?' In reality, no; but no Saint misses his or her body as They know a physical body to be.

It is important that children be instructed on the importance of prayer, but also, the understanding of the meaning of it and the reason for which The Father created prayer, else there would be no communication between human life and The Divine.

Prayer, oftentimes, deliberately allows the individual saying it to be reminded that there is more than what the human body and mind is used to, and that is a Greater Place Where The Creator Exists, and Where the Souls of All the Saints partake in All that is There.

This Gift of Divine Love, bearing the Name of The Beloved

Saint Joseph, must be spread throughout the world, because it is important that all of human life more fully understand that as The Foster Father of The Son of The Creator, His Place, His Background, was Greater than the human role.

There is so much logic in All that has been spoken, All that has been delivered, regarding the Closeness human life has to The Divine.

Children are not even being instructed on saying prayers at bedtime, or when they awaken to begin each day, remembering that The Creator of All Things is allowing that day to be, to give them more time on the earth, and to more fully understand that within them they have a Portion of The Creator, obviously there, because in the conscience and in the mind, human beings know there is a Greater Entity of life, Supreme and Divine.

Ignorance to this is blasphemous, and in many ways sad, because it is illogical not to value the importance of human life, because there are so many facets to it that give human life courage, strength, hope; so there has to be a Divine Origin, else human life would be like all other living matter, and there would be no Goal.

As I leave you, it is My Wish that All that has been delivered through this Gift of Divine Love for the benefit of Souls, will travel throughout the world, giving Light and Hope where there is nothing else, for human beings to see that human life has a Portion within it, a Portion of The Creator, called a Soul.
So be it.”
