

SAINT CLARE

I am Saint Clare.

I do not speak often through this Gift of The Father's Love for human life, but I find it a privilege when He beckons me to participate.

The world has been blessed, and it is so sad for All of Us Here to see so little recognition on All the Important Things that The Father is giving in an understandable manner for people of all ages, backgrounds, to understand the beauty of human life and it has a Goal Greater than the human mind can comprehend.

This should not be something difficult for men, women and children to understand, because so many areas in life, there are times when important things change the course of one's life, or sometimes how they decide to act.

This Gift is beyond what so many men, women and children want to accept, because they do not see or wish to see that in their daily way of life, change would be more advisable for the safety of their Soul, but even for the safety of their physical — faults that they must change, because they are detrimental to their life in many ways.

We hear so many excuses on individuals not wanting to change, because they are used to doing what they do, thus ignoring the advantage to change in most cases; also, the benefits of change that would help them mentally, emotionally, morally, spiritually.

I cannot give you the number of how many Saints participate in this Gift that The Father has given to the world of human life. ***Each Saint wants to participate to help those who have no other way of understanding or learning the importance of their changes that would give them, give their Soul, a Greater Place, a Higher Place in Heaven.*** It is not just stubbornness, it is weakness of the mind that causes individuals to try to ignore the beauty of what the change would do.

At the time of the Apostles, they had to learn to change, to adapt to a more realistic logic in human actions, behavior, because of learning they had a Portion of The Creator within them, and that there was a Goal to their life after the physical no longer existed.

What a Beautiful Gift the Father instilled in human life, a Portion of Himself Above and Beyond all the talents, abilities, knowledge that He gave to human life, so that each human being could take part in dealing with so many areas that nothing else living has, or would ever have.

As I leave you, I beseech you to read these Words once in awhile, because each time you do, it will help you better understand the Importance of human life that you were blessed with at the moment of your conception by man. So be it.”
