

SAINT IGNATIUS LOYOLA

“I am Saint Ignatius Loyola.

At this time, The Father has given to the world of human life a Gift, One that could be called a follow-up of the First Book written, called ‘Bible History’.

Between The Son’s Time upon the earth and another period of time, when men decided to see Christianity in its Full Light, Full Purpose, Full Goal, The Father picked a time, and that is NOW, for so much to be delivered regarding the Importance for which He created human life, and also, Announce in many ways, many degrees, the Purpose for human life, because of the Soul that each human being is the custodian of.

It would be wrong to ignore or dismiss the fact that human life is different than all other living matter or things, ***because there is a Portion in human life that bears a Portion of The Creator, unseen, but obviously there,*** due to the fact that a human mind knows instinctively that there is a purpose for sound moral values, sound moral standards and, of course, an ingrained belief in a Creator that Exists, though unseen.

It is sad to hear individuals argue points that are basically ridiculous, because they are only humanistic in evaluation, ignoring ***Divine Intercession in the Creation of All Things;*** plus, giving to human life a ***special role*** to play, ***because of the Soul that is instilled at the moment of conception.***

The birth of a child is not just the birth of a human being. It bears within it a Gift beyond what a human being can see, but the

very characteristics of the human part identify an Inner Part.

I could speak hours on the importance of this subject. The ‘mentality’ of human life is a gift, the ‘ability to see’ is a gift, the ‘sense of touch’ is a gift, even ‘taste’ is a gift, ‘tears’ are a gift. There are many ‘gifts’ to human life, all with a sensitivity to some area, some thing, for some purpose. So, is it not logical to not just believe, to not just understand, but **to value the ‘gift of human life’** for all it is, and that it has a **Portion of The Creator** that is to be returned to The Creator in Glory, in thanksgiving, **because of What It consists of?**

The Goal for this Portion, called a Soul, is a Gift beyond any human intellect, but the logic of it stands out because of its Importance. There has to be a Goal for human life, because of all the Gifts that human life has been endowed with. Logic is evident and the Soul is evident, because many times the Soul helps an individual make the right decisions, and the individual only considers his or her mind in this act.

As I leave you, I beseech you to accept the obligation, the privilege, to pass throughout the world — no matter what language others speak — All that has been given through this Gift of Divine Love, because millions of Souls daily are abused, and THIS MUST CEASE. So be it.”
