

SAINT ELIZABETH

**I** am Saint Elizabeth.

**I** find this time with you a privilege. ***There are so Many Saints Here in the Heavens Who have been able to speak openly in this Gift of The Father's Love for human life.***

**D**ue to the many obstacles based on purity of the mind and the body, it has caused many individuals of all ages to accept participation, thus ignoring what the participation would do to that Portion of them called the Soul.

**T**oday as I speak, I speak more slowly than Others, because I am present with you, and I feel as though I am part of what you all are all about. To perpetuate the Will and the Words of The Creator is a Gift beyond what any human being can perceive it to be.

***All of Us Saints Here in the Heavens cherish this Gift of The Father's Love, because It has spoken openly in directing all who will read the Words, to become more aware of the Soul that is a Portion of them, that is also a Portion of The Creator.***

**A**s I am surrounded by Many Here at this time, They All smile at My Words, because as I am speaking Them, I am also fully aware of the presence of everyone here where you are.

**C**hildren are not being instructed on the Importance of the Goal for which they were created. We hear some adults say: 'I feel it is too early in their age to understand such phenomenon.' This statement, of course, is wrong. A child wants to be told stories; is

that not so? And many times the stories that are told have an in-depth meaning to them, and give them joy, and more understanding of the communication that is part of human life.

**I**n so many areas children are never told about their Soul, because those in charge of the children feel it is beyond young minds to understand. This is false thinking. First of all, the mind of a young boy or girl has a sensitivity to remember things, especially when they feel it was delivered to them, spoken by someone who knew a lot about the subject, and that the subject, if it is about God and their Closeness to The Creator, it gives them strength beyond what some older people do not understand, because they are too preoccupied with many other things; but the young mind absorbs the words because the young mind connects the words to their way of life.

**L**earning brings happiness, gives strength, and permits the young mind to remember at a later time, when some other subject arises that needs the exact wording that was spoken at another time. I beseech you, when you participate with the young, do not underestimate their memory, because even though it does not appear activated, it is most times deeply imbedded for a later time.

**A**s I leave you, I beseech you to use your knowledge, your understanding, of what is right over what is wrong, and if you address this in a manner and way, you can be assured that even though time lapses for it to be heard again, it has remained somewhere in the mind of the one to whom you spoke the words at another time.”
