SAINT FRANCIS OF ASSISI

“I am Saint Francis of Assisi.

We listen to conversation and understand the prediction of turmoil, because all through time human beings of all degrees of intellect have succumbed to weaknesses unnecessarily.

It is so important for human beings of all ages, backgrounds, and degrees of intellect, to understand morality over immorality, justice over injustice, hope over despair.

The Father, in His Creation of human life, allowed many years to pass before this time, because it took time for human life to learn how to adjust to many things, and how important it was for the intellect of human beings to better understand, more fully understand, that the human mind would be the acceptor or the challenger of all that was set forth to be considered, for a decision worthy of the cause or situation, but also, always to remember that as a creation of The Creator, human life would have, and does have, responsibilities greater than the average understanding of human life accepts.

Ignoring what is right does not justify accepting it. Ignoring truth, and then using it in the wrong way, is a sadness for All of Us Saints to watch, to see, to hear. Children are not being instructed on what is morally sound, morally pure, morally just.

Throughout the world so many great decisions are based on what man calls ‘intuition’ or the easy way out, so confrontation will not take place and embarrass them, or make them use what they know is fact, truth, because circumstances could be unpleasant to

their physical or their mental.

I speak differently today. In some ways I speak in what mankind would call a form of anger, but it is not anger; it is justice over injustice, purity over impurity, eliminating confusion in every facet of life, because confusion destroys what is morally sound, what is morally pure, what is morally acceptable, advisable.

In decisions, rarely is the Soul thought of. This is a sadness to All of Us Here in The Heavens. ***The Soul, as a Portion of The Creator, is the victim of what an individual accepts, uses, portrays, or applies in the wrong way, at the wrong time.***

I know My Words have been different, and will be difficult for some to understand, but nonetheless, They are given to enlighten human life of all degrees of intellect, to think of the importance of human life, ***and that each human being is responsible to The Creator of All Things for That Portion of Him that is in each creation of human life, the Soul.***

With this I say, 'Amen'. So be it."
