

SAINT STANISLAUS

“I am Saint Stanislaus.

A Gift of this Magnitude, that The Father has Blessed the world with, is beyond what the human mind of mankind can fully understand, because not just the Beauty in the Words, but the Logic in the Soundness of What is spoken, always gives to the mind of the one reading It, a sound, reasonable fact, that whether the individual remembers the Words or not, the Fact or Facts are indelibly marked, perhaps for a future time, to be remembered because of circumstances, or a situation that calls for the individual to respond or to act.

Children should learn in a very natural way, the importance of human life, and that all things were created by a Supreme Power, such as the atmosphere, the moon, the sun, and the lives of so many different species of animal life that, without a Creator in Control, none of this would exist. Children are instructed in the practical forms of education, on issues and matters that they will be responsible for in their way of life, no matter what vocation they choose, such as reading, writing, and other practical forms of knowledge that are dealt with in all areas of life.

Without All that The Father instills into human life, human life would be like all other animal life or vegetation, but it is important that human life be understood as special in every factor of it, ***because human life has a mission on earth, and that is to return a Portion of It — the Soul — to The Creator of All Things. This is the Most Important Mission that anything created has, because the Soul, as a Portion of The Creator, will represent the individual in the Heavens, along with all others who walked the human role, and looked at it as an Important Gift of Divine Love;***

some, not always aware that the Soul, as a Portion of The Creator, will represent them when It is returned to The Creator with their name on the Soul.

Children, in modern language, can be called 'sponges', because so many times they hear things and they absorb it in a greater degree than others expect them to. That is why it is so important that children are instructed that within them they have a Portion of The Creator that is to be returned This Way, and through these Words there is a Goal for life, a Higher Goal than is imaginable, but so little is spoken about the Close Association that human life has with The Creator of All Things.

Today as I speak, I speak with a deep love for human life, ***and All of Us Here in the Heavens want all who walk the earth at this time, and later, to realize they are Gifted with the Greatest Gift possible to have.*** Think of it in a humanistic way. When you are presented a gift, and it is something that you truly enjoy, you love having it. It gives you happiness, and each time you think about it, it helps your mind feel good.

I could write, I could speak thousands of encouraging Words on this subject alone. It is important that this Gift of The Father's Love, delivering to human beings of all ages, all backgrounds, not just stories, but facts to encourage the human mind of every individual to be aware that ***human life has a Goal, a Purpose, and it is to return to The Creator a Portion of It given at the moment of conception, called the Soul; thus, when the Soul walks with The Father, is returned to The Father, It represents the one in whom It was placed at the moment of his or her physical human conception.***

All of Us Saints could speak hours on this subject in a loving way, wanting all who read these Words to be aware that ***there is a***
