

SAINT TERESA OF AVILA

“I am Saint Teresa of Avila.

There are so many errors being performed regarding what is morally right, wrong, pure, impure, just, unjust. The words are endless.

In so many ways, the importance and the purpose for which the Commandments were given to human life was to give men, women and children the Rules that would give them Sound Direction in all they did, all they said, and all they willed to be done. In so many areas of the world, the Commandments of The Father’s are eliminated, thus encouraging human beings of all ages to be guided by the rules of human beings, who supposedly stand in authoritative places.

Children are not being instructed on the importance, the joy, and the purpose for why they should be pure in their minds, and not allow anyone to cause them to perform impure acts, thoughts, speech. There is so little sound direction by those in charge of children, basically denying the children the Importance of what The Father Wills them to follow, to practice, ***and to understand that they were created to one day return a Portion of them to Him.***

The beauty in the realization of the birth of human beings is lost, has been lost, to basically demonic reasoning. It is difficult for many, of all ages, to fathom that they can be the victims of something they cannot see, cannot hear, cannot feel, so they respond in manners, ways and degrees totally impure, regarding their body, their mind, with no thought, of course, that they are the custodian of a Soul, a Portion of The Creator that He Wills them to

return to Him Forever.

There are so many theologians who do not understand the basics of what purity means. They become so involved in theory, or their interpretation of what they read, what they learn, that there is very little sound instruction physically, or through the written word, from them, by them, because of them.

I could speak hours on this subject, as All of Us Saints Here in the Heavens could. This Miracle of The Father's Love has been given to all of human life with the Written Word, through so Many Saints Here in the Heavens, because All that was previously put into script is not always clearly understood because of its manner of content, and also, the imagination of those, or I should say some of those, who had the final word on what they felt The Father meant.

Always remember, when you or someone else refers to The Father in Heaven, the word 'Father' does not fulfill the Full Meaning of The Creator. In many ways, it is an intimate association when the word 'Father' is used; a close association, ***but all ages of life must understand that the One called 'God' is The Creator and The Judge, the Justice and the Hope that will one day be what the Soul of all human life will see and understand.***

Theologians may argue this point, but I assure you, All that is delivered through this Gift of Divine Love, is for the Souls that each human being is the custodian of, Who will be able to return to Heaven."
