

SAINT AGNES

“I am Saint Agnes. It is a privilege for me to partake in this Gift of The Father’s Love for all human beings throughout the world.

All of the Saints Here in the Heavens cherish these moments that The Father gives to Them, to speak through this Gift of His Divine Love.

It is so Important that men, women and children begin to recognize the value, the privilege, and the Divine Love that is given for each birth of human life.

Today as I speak, I want all who read the Words to know that ***the Goal for the Soul of human life is Far More Beautiful, and a Generous Gift from The Father’s Love, because the Soul is the Remaining Portion that, in many ways, is the recipient of all an individual was gifted with, and how the individual dealt with all actions, all features of human life.***

So Many Saints Here in the Heavens smile when One of Us speaks. We call It a privilege to be able to give Words of Encouragement, more Understanding to those who are yet in the human way, and have a Soul that is the recipient of all that the individual takes part in, practices, does.

Today, as Many of Us gather — because usually when there is One of Us, there are More — there is so much Hope for this Gift of The Father’s Love to travel throughout the world, because It is a Gift that nothing in the world can compare to. It is a Gift of Divine Love for the Souls, but also for the individuals who are the ones that will one day stand before The Creator, for all they have done, all they

practiced in the human way. The Soul is the recipient, but the individual man, woman or child **will be aware** of what The Father Chooses for the Soul that they were the custodian of at a given time.

We hear some say, ‘Well, I won’t be alive, so how will I know?’
Human life has many entities to it, and the Communication of your Soul with The Divine will help you be aware of What Takes Place at a Very Important Time. So be it.”
