

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

The Father, in His Love for human life, has given to human life the privilege to hear so many Saints speak and be able to read Their Words, so they will remember the Content of the Subject, regarding the Importance for which It was given.

It is difficult for all mentalities of human life to accept, to believe that there is a Goal for human life Greater than the human way. So many times those who preach on this subject do not fully understand, or do they comprehend or do they basically believe what they are saying is fact, is valuable to the mentalities of all who will hear the words.

You do live in a time worse than Sodom and Gomorrah. ‘*These words*’ have been spoken a long time ago, and in many ways. When certain individuals read ‘*these words*’, they immediately, automatically think, say or wonder why The Father allows human life to be continually born; why The Father does not stop human life from being continued to exist.

In each era of time, human life made decisions, and still make decisions on what they feel is important. They also consider it growth mentally, physically, but how many consider it growth in a spiritual degree that is so astounding that it gives them, or urges them, to more fully understand what a Precious Gift human life is to man? There are always so many discussions on what is occurring, but rarely is there a solution to what is wrong, because too many men, women and children take each day as it comes along.

I feel badly saying my next Words, but it is fact. Sometimes cowardice stops individuals from standing firm on what is morally sound, pure, just, important, and necessary for the Soul, like We hear some say, 'No matter what I would criticize, I will only be criticized in return, so I will not bother with my opinion.'

All of the Saints Here in the Heavens have heard these excuses thousands of times, thus avoiding any conflict, any difference of opinion, ignoring totally that what is morally sound should be an important subject. ***What is wrong against sound morals should be spoken out as a neglect to what human life was created for.***

I know what some will think when they read these Words, or I should say, *if* they read these Words. The very same people who would resist speaking firmly on this subject most, would not be concerned about arguing openly on a point that was monetary to them, or how they felt about how they live.

Books could be written on this subject, but I assure you they would not sell, because men, women and children do not see the Value, the Importance, the Necessity of the Soul they are the custodian of. We hear some say, 'I cannot see It, how do I know It is there?' The very fact that you know justice from injustice, hope from despair, dislike or hate from what is normally called love, you must awaken to the fact that when you do not consider yourself —in a crude manner — *stupid*, then you must have some insight into what is important to human life, and that human life was created for a Higher Goal.

The very fact that human beings of all ages strive for success, strive for attention, strive to be first on issues in places, should prove that human life has the ability to understand that ***it is Important to search for the Goal when life ends, to reach for the***
