

SAINT ROBERT BELLARMINE

“I am Saint Robert Bellarmine.

The small voice The Father uses to repeat Our Words to you, is to encourage all of human life to see the Goal for which human life was created, ***this Goal being to be returned to The Creator in purity.***

The whole world is laden with diabolical sources, forces, conditions, and meaning, because the enemy of The Creator of All Things wants to be seen, to be followed. It is not jealousy, it is more than jealousy, because such demonic pleasure is definitely weakness in many ways, and the only strength that shows is to conquer some of the Souls of human beings, that basically should be one day returned to The Father, Saints.

It is not a battle between The Creator and evil. The Creator is in Control, but through the gift to human life ***to be able to choose*** what an individual wants to do, to say, to feel, to express, to own or to be in charge of, allows ***the free will*** the ability to make decisions.

The Father has given to the world a Gift beyond what the human minds of millions of human beings can fully comprehend. He has allowed one voice, one body, to be used to deliver Information and Direction so that human life of all degrees of intellect would have the advantage of choice, and not just domination to choose what is pleasing to The Father, and what is best for their Soul.

So many of Us Saints speak through this Gift of Divine Love, and We truly understand that through some Words, the way in which

They are spoken are easy for some individuals to comprehend in a deeper degree, the importance of the meaning; and then, other Words are spoken, and the reception of Them, the consideration in Them and, of course, the understanding of what They mean, helps other individuals, through their mentality, to discern a greater degree of what is meant for them to understand the advisability and the importance to look at the conditions, the circumstances that they are exposed to daily, and use their logic and, of course, their love for The Creator, in how they commit their allegiance, their affections, their interests, their way of life to what they see as not just a normal reaction, but a reaction that is fulfilling to the Soul that they are the custodian of.

As I close My Words I bless you with The Father's Love, and His Will that, in your understanding of All that has been delivered thus far by so many Saints Here in the Heavens, you will find in your way of life an in-depth love for having become created a human being, because of the Soul and the Goal you are Blessed with."
