

SAINT ATHANASIUS

“I am Saint Athanasius.

There are Several of Us present, because of the Importance of the Subject Matter. The world is in chaos. There is so much immorality that the average living human being does not take the time to determine if an act or speech or situation is moral or immoral.

There are so many individuals walking in weakness, yet feeling they are walking in a modern way, a way expected because of the time in which they live. ***Throughout the world, each day, there are so many sins practiced against the Commandments of The Creator. When the Commandments were given to Moses, each Commandment was dictated in much detail. Through time, human life has a way of shortening the Words, feeling that time is more necessary than the Words could mean.***

Children are not being instructed on the importance of their intellect, why they have it, and the purpose for which it was created. The laxness in instructing all ages is not just a sadness to see, but in some cases devastating, because it is harmful to the Souls every day.

When a human being gets killed, murdered, the injustice is felt in many degrees. I am not saying that it should not be felt, but sometimes the very same people who feel that way about the physical, ignore the spiritual necessity in life, and the reason for it, because humanism seems to supersede what life was created for, and that human life bears a Gift of Divine Love that should be protected at all costs, ***because as It is a Portion of The Creator,***

Its Purity is the most Important Fact of anyone's nature, performance, involvements, understanding and/or educational aims.

I speak differently today, because there is so little thought in the human minds that, each day, every individual of all ages does not deal with just the material or the social facts of life; they deal with the Soul that they are entrusted with at the moment of conception. The Soul is the *recipient* of everything they do, think and say.

Maybe the comparison I can give you, will help you to understand what I have just spoken. You see an article, and you do not know what the article is, but yet you take chances out of curiosity, and you handle the article because of your curiosity. The article is poison to your system, or even to your mind, and yet you do not question the in-depth reasoning regarding this article.

Every day of your life you are handed an article, whether it be words, direction, conversation, or physical communication. I say to you on this day, think of the situation as the importance of it, and how it will involve you, what it will cause you to react to, respond to, relent to, or be a victim of.

I know My Words are different, and perhaps some who take Them or read Them, will not feel or see or understand, that every day of human life every individual born must look at the day as a time closer to, hopefully, use it to become a Saint; not an impossible idea, but practical in every way.

I close My Words with a Blessing because, you see, in the human way there are so many things in life that look practical, necessary, but remember, if you have one question, say a prayer to yourself, ***and the Best Prayer you can say is: In Nomine Patris, et Filii, et Spiritus Sancti. Amen.***
