SAINT ANTHONY OF PADUA

“I am Saint Anthony of Padua.

My name is oftentimes mentioned on certain issues. When there is a need for prayer, All of the Saints Here in the Heavens immediately respond, but always according to The Father's Will and Direction.

Throughout the world, men, women and children are starving, not just for food, but starving to more fully understand the importance of being a human being and, of course, to know more about The Father and His Will for man.

For some individuals to be told there is a God, there are Many Saints, this information gives hope, but the same individuals who claim to know about These Entities of Greatness, do not speak more on the values of morality and obedience to the Commandments of The Creator.

It is so easy for an individual to be interested in a point of view, or something that they hear about that is important, but the belief in it, the understanding of it, oftentimes turns into a fleeting moment, and then the individual is off on another subject, not always close to the one that began their thoughts in the beginning.

The human mind is a gift unto itself. It has the ability to concentrate indepthly on many subjects, but it also has the ability to close out a subject that is of great importance, and then speak on something that, in plain English, is *trite* compared to what they should be thinking. Many would not expect a Saint to use a word that would be considered slang to most, but it is fact. It is so easy to

change one's mind, instead of looking more indepthly into the importance of a subject.

With all the progress throughout the world, in so many areas, on so many subjects, human beings of all ages are, many times, prone to just looking at their daily practices, or on subjects in discussions that, in many ways, does not give hope or dignity or enlightenment to their will, their way, their understanding, or a goal that is worthwhile, especially for their Soul.

I could speak endlessly on the necessity for human beings of all backgrounds, all ages, all intellects, to begin to think of the importance for which they were created a human being, and also, what a Treasure The Father instilled in each human being, a Portion of Himself called a 'Soul'; but also, that logic should tell each human being that as the Soul is a Portion of The Creator, It has a Goal Greater than any mentality or material matter could be equal to.

I close My Words with a deep love for human life, and I say to you, ***'The privilege that has been bestowed upon you is beyond what you can comprehend its Greatness to be, and that is, that as you spread All that is delivered through this Gift of The Father's Love, there is a Reward for your service to Him.'***
