

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

**W**hen a child asks, ‘What are you doing?’ are you ready to answer in truth, but also, is the truth beneficial to the child morally, mentally? In so many places throughout the world, children are not receiving the correct, the moral way of life.

**A**s We All speak at different times, through this Gift of Divine Love, there are so many Subjects We would like to express more Information on than the time or the paper allow.

**T**hroughout the world children of all ages, and when I say all ages, I mean up to eighteen years old, are not being instructed in what The Father Wills them to know. ***Purity of the mind, of the actions, is rarely, if ever, expressed as Important to the body and to the Soul.***

**T**hose who read the Words I am speaking, please ask yourselves: How many times a day are you aware that you have a Soul? Would you say *ten times*, would you say *five times*, or would you even say *one time*? We Here in the Heavens know that the answer would be sadness to hear, because it is rarely, if ever thought of, an individual remembering their Soul in their day’s way of living.

***Right now, as I speak, how many men, women and children are thinking about their Soul, the Importance of It, and what a Precious Gift It is to the human way of life?***

**I** know What I speak is different than most want to read about, but The Father has given to the world a Gift Greater than the human mind can perceive It to be. ***It is a Gift of Great Love, Deep Understanding, and a Divine Willingness to instruct all ages of human life to fully understand what a Precious Gift human life is to man.***

**M**ost individuals place a daily importance on material things, or on their association with other individuals, or what they are accustomed to doing. The Purpose for life is rarely thought about.

**T**he Father has given to the world a Gift of His Divine Love that is Far Greater than It is perceived to be, because in the human way materialistic practices are more important than even thinking about What human life is the custodian of, Which has been spoken about much, ***and that is the Soul that is to one day be returned to The Father, to The Creator of All Things, returning It to from Where It came in a Pure State of Love, to give to a human being the ability to understand intellect, and all the gifts that human life receives.***

**C**hildren are not being instructed on the importance of daily life, and the importance of being born, because so much distraction is caused by things that are unimportant, and yet when an individual speaks on other subjects, they put much emphasis on the importance of the subject, because they want it understood in its completeness.

***This Gift that bears the Name of The Beloved Saint Joseph, is a Gift Far Greater than It has been given credit for, because It is a Gift enlightening all ages to the Goal for which human life was created, and the Goal is to return to The Creator of All Things that Portion of Him, the Soul.***

**N**eedless to say, I could speak hours, and would like to, because ***All of the Saints Here in the Heavens*** want so much for all who are now in the human form, to more fully understand that ***they possess a Gift that is a Portion of The Creator of All Things, and the Gift has a name; It's called 'Soul'.***

**A**s I close My Words at this time, there are Many Saints Here with Me now, hoping and even praying, that What has just been spoken will enlighten the minds of not just a few people, but hopefully thousands upon thousands upon thousands, of the importance of human life, because it has that Goal that nothing else created is gifted with.

**W**e see men, women and children every day, striving to reach goals materialistic, and with other human beings, ***but the Greatest Goal for human beings is to one day return the Soul to from Where It came, and The Father will call It 'Saint'.***
