SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Even though it is difficult for many so-called learned individuals and so-called spiritually oriented to understand the beauty of The Father’s Will, and why He would come at a time like this to announce so many ways for human beings of all ages to be conscious that they have a Portion of Him within them with the simple name called the Soul, children are not being instructed on the importance of human life. Most are being instructed on what is important materially and, of course, mentally, thus ignoring the Soul.

There are so many individuals who take on the role of what is termed *preaching*, but I guarantee you, there is very little teaching in their methods, in their subject matter, because so often they are inclined to want themselves to be seen for an important practice of Faith, thus ignoring the full meaning of what they are teaching.

There are many Saints Here in the Heavens Who are capable of, and willing to do, and that is to teach every moment of every day, how Important it is for human beings to understand that ***life in the human way was created in the Love of Divine Plan.*** That is why it is important for all ages to understand that the gifts of human life were great advantages, ***because through the gifts of human life, the human mind was made to more fully understand that it was given the gift of life to one day return a Portion of it according to Divine Plan, and that Portion, of course, is the Soul.***

It is sad for me to say now, but it is difficult for millions of men, women and children to believe that within them they have Something they cannot see, cannot feel, but they are told It is there, because It

is a Portion of The Creator of all things. It is called the Soul.

The word '**Soul**' has been brought down to a humanistic evaluation when individuals claim that with someone else or others, they are called 'soul mates'. Of course, this descriptive manner of speech brings it to a truly fully humanistic measure of thinking, copied from the original words that the Soul is present at the moment of conception and will return to The Father when the life of the human being no longer exists.

I could speak consistently and constantly on this subject matter, but hopefully, what few Words I have spoken will awaken some individuals to the importance of their being born, and their responsibilities for a **Portion of them** that is a **Portion of The Creator, called the Soul.**"
