SAINT ROBERT BELLARMINE

“I am Saint Robert Bellarmine.

We All smile when One of Us is chosen to speak, because very often those who are selected to put the Words in print, are preoccupied with something they feel serious about, but We still find they stop to write.

The world has been blessed abundantly with The Father’s Love, through this Gift wherein so much is spoken in an Instructive, Teaching, Formal way, and yet the Words used are personal in Their own way.

This Blessing I talk about, is that The Father has Designed a Great Gift of His Divine Love, instructing Himself, and allowing many Saints Here to instruct those who write the Words, and those who will read the Words. The subject, of course, is based on the importance of human life, and that there is a Goal to human life.

I come today to say that more should be instructed to the young on the importance of being born the human way, because of the Soul that gives to human life a Special Place, a Special Goal, that nothing else is the custodian of.

Prayers is important, because in its own way it allows or it causes an individual to remember the important fact that they were created to understand that ***there is a Higher Source, Force of Entity, and also, that they must see this as a Goal for a Portion of them to one day return the Gift The Father Wills all human life to have for a Portion of it, called the Soul.***

I will close My Words, but as I do, I beseech those who put Them into script, and those who will one day read the Words, that to be born a human being is a Special Gift of Divine Love, and it has been given many gifts such as the abilities common to human life: the mind, the sight, the ability to control one's emotions, and yes, to be able to communicate with others like themselves on all subjects, many of which are on subjects other than the body.

So much Love has been given through this Gift of Divine Love. It is important it be recognized, allowing one's self to say 'Thank You' more times to The Creator of All Things, because being a custodian of a Portion of The Creator bears much responsibility, and is that part of human life that is to be returned to The Creator a Saint.

To some these Words may sound far-reached, but logic says in the human way, as all individuals seek out goals, materialistically, mentally, socially, causes a human being to have an innate sensitivity, that at one time to come, ***they have a Goal to reach called Sainthood.***"
