SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Legal issues that human beings are subjected to are necessary, in many ways, to keep law and order; also honesty, also truth, available for all degrees of mentalities, ages, backgrounds, and interpretations of facts, figures, issues, and situations.

***The Father has blessed the world with a Gift Greater than the human mind can perceive It to be.*** In doing this, He does not say: I am criticizing your mentality or your ability, but I am instilling in all of human life that, though there are laws, regulations concerning the physical part in the world, you must never forget that the physical actions, thoughts, words, deeds, are oftentimes part of your spiritual practices, duties, obligations, and understanding that with all you know, all you understand, all you feel obligated to, is *accountable* to The Divine Plan of your human life, your human manner of living, your human practices, your human behavior, your human mentality, understanding ***that you are subject to one day facing The Divine Creator.***

Thousands of Words could be spoken on this Important Part of human life.

My next Words are sad, because even the so-called ‘most holy individuals’ allow themselves, permit themselves to *ignore* what is right over what is wrong, what is pure over what is impure, what is just over what is unjust.

All of the Saints Here in the Heavens have thanked The Father for allowing this Gift to become so Important in What It delivers,

because of the necessity of the protection of the Souls of millions of human beings, all races, all colors, all creeds. Thus far, these Writings have not passed the major distance for others to read and to begin to see that ***The Father's Love for human life is open, It is available, It is concerned, and It desires all human life to more fully understand that human life bears a Gift Greater than anything they could buy, they could make, or even steal, because the Soul is the Important Entity of the Communication between The Divine and human life.***

**T**he Soul is the *recipient* of all an individual thinks, practices, participates in, and shares with others. We see so many individuals buy or receive something materialistic that they dearly love, and they protect it without question because of its great importance to a certain facet of their life. This is not wrong, but oftentimes it supersedes how they feel about their Souls.

**I** could speak endlessly on this subject, but I beseech those who put the Words in print, and those who will read Them, to use your logical mental ability to see that ***there is a future to life that is different than you are used to, but It is Greater than you can achieve in any facet of human life.***"
