

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Every day is an important day in the life of a human being because, in each day, there is the privilege for an individual to recognize The Father’s Love and accept It through the reciting of a prayer, or a few words of ‘Thank You, Father, for being there.’

There are very few individuals throughout the world who genuinely, indepthly, understand the ***Magnificence of their having a Portion of The Creator within them.*** It is not just doubt, but it is impossible for many, not just a few, but for many to accept that The Creator of All Things would give to human life a ***Blessing of this Magnitude***, because human life is not always pure in what it does, what it speaks, and who it associates with.

Needless to say, prayer is a Gift delivered by The Father a long time ago, giving the Foundation of Communication that an individual can use secretly or openly with The Father, and Anyone Else they choose.

Children are not being instructed on the Importance of their creation of human life and the Purpose that is available to them day and night, and that is, for them to recognize personally or openly, that they recognize ***there is an Entity of Divine Being*** that can hear every moment of the day what an individual has to say.

We hear many individual men, women and children question why they cannot hear a return reply when they pray. In reality, it does occur, but not in the human way. No prayer, no request, no act of love is ever ignored, because every move made, every thought an

individual human being has, is heard.

The Valuable Gift of Life is first to be created a human being, and then all things fall into place: the ability to see right from wrong, the ability to do many things, the ability to associate with other human beings, and the ability to want what is good over what is evil, what is just over what is unjust. This occurs even in the most evil of human beings, believe it or not.

Human life has a Goal. If this was not so, why would The Creator of All Things have given human life ***Bible History***? Was it not to learn from? Also, the fact that there were ***Rules to live by called 'Commandments'***. None were impossible to follow; it all depended and depends on the human way, the human mentality of what is pure over what is impure, what is right over what is wrong.

So little is being instructed upon at this time in which you live. So much is laxness in caring, or very often just an indifference, because they cannot see The Creator, they cannot feel The Creator, and they cannot feel their Soul. What they do not want to think about is, in human life, The Father gave to human life a ***free will*** and the mentality to use it justly or unjustly, but to use it productively for many ways of how an individual walked the human life.

So often when individuals confess their sins to what is known as the *Priesthood*, they address what they want to speak about in a very humanistic version, but oftentimes in a way that basically does not tell the whole story, the whole reasoning. Of course, this is called *'There's not the time, there are others waiting.'*

Human beings have what is called *'excuses'* on every area of life, every act of life, but the *excuses sometimes are lies* and do not fulfill what they are supposed to, because the individual feels comfortable in using the words comfortable for them.

Needless to say, The Father has given to the world a Blessing at this time, Greater than It is understood to be. This is, in many ways, taken for granted and in other ways, It is diminished, because the Content is not pleasing to certain individuals who find themselves wanting things to be as they feel comfortable with.

Let us now take the Commandments that were given a long time ago. As you read Them now, They are so concise that Their full meaning is not seen in the degree They were delivered a long time ago, but if you will but try something, I know it will give you strength. Make it a practice to, each day, silently and to yourself, go down the list Word by Word, number by number, and then if you find that you are not quite up to par on what the Commandment requests, you have the ability to think about it and then perhaps change.

So the next time you go through the Commandments, you will see Them in a different way, more helpful to your daily way of life, more encouraging in how you speak and how you pray, but also, how you respond to others you know and how, in your way, you can become better example, not by repeating the Commandments but by how you act, how you speak, how you live and what pleases you; but always remember, to do it in a manner, degree and way that is instructive, not destructive, not commanding but normal to how you think.

I could speak hours on this Subject because you live in a time when there is so little respect for how people live, how they think, and how they practice their way of wanting to become a Saint.

I bless you with My love, and I beseech The Father to give you the strength to grow spiritually strong so that you are example to everyone you meet.”
