SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori. The Father has requested I speak on an Important Subject Matter.

**S**o little understanding exists on the importance of prayer. What all ages of human life should understand is that their communication with other human beings gives to their lives, not just informative subjects, but a closeness of unification in their thoughts, ideas, circumstances and availabilities in many different interesting facts of life. Prayer is comparable to this, but basically gives to human beings a personal strength, talking to The Heavenly Father, to The Heavenly Mother, to The Beloved Saint Joseph, and the list is endless regarding the Saints.

**C**hildren are not being instructed that they are never alone. They are always accompanied personally by their Guardian Angel, or One or More Saints. That is why it is so important for all ages of human life to be mindful that ***human life is gifted with a constant communication with The Divine that nothing else created has the privilege of.***

**T**oday as I speak, there are a numerous number of Saints with Me, because through this Special Gift of Divine Love, wherein so many Saints are able to communicate in ways, degrees, on subjects to aid the Souls of those in whom They are placed at the moment of the human conception of a life, the Souls are dependent on what the individual practices, participates in, is example of; plus whether the actions are pure or impure, because the Soul is the *recipient* of every thought, word, deed, action that an individual partakes in.

**T**hroughout the world, the basics for daily life, living, are not

always beneficial to the Souls. Oftentimes the enemy injects, partakes, or encourages sinfulness, thus causing the Soul more than sadness, but *deprivation* of Its Closeness to The Heavenly King, The Father of all.

**W**e hear so many questionable misunderstandings regarding the importance of human life to be able to partake in what it is exposed to. The human mentality oftentimes feels that it should be a decision due to the freedom of thought instilled in them, thus ignoring whether something is moral or immoral, just or unjust, pure or impure.

**C**hildren are not learning the Importance of the Commandments that were given a long time ago. These Important, Sound Directions were given to give aid, logic, and sound understanding to the various facts that would be available for an individual to choose right over wrong, purity over impurity, based on indifference and irrational judgment.

**I** could speak endlessly on this subject, but what I have thus far given is sufficient to learn from, by those who will read the Words and see the logic in choosing what would be beneficial for the sake of their Souls.”
