SAINT JOHN OF THE CROSS

“I am Saint John of The Cross. Many of Us are present wherever and whenever this little one that The Father has chosen for such a Major Task.

Throughout the world, men, women and children plead to understand more about *what life is all about*. They do not always mention the **Goal for life**, because they have never been instructed that the **Goal for life is a Gift of Divine Love** that, without It, human life would not have the capacity to be morally strong and to know that anything that was not moral could be *immoral*, and be *damaging* to their Soul.

Even though, through time, Stories have been written regarding the fact that human life **bears a Portion of The Creator within it called ‘the Soul’**, it is rarely thought about of **What Great Importance this Gift is** to the mentality and to the moral understanding that a human being must practice daily, due to the fact that **all things affect the Soul**.

When an individual of any age cuts themselves and causes themselves to bleed, they become emotional or fearful, because of the danger they feel attached to an occurrence such as this, even when they know the cut will repair itself; it is not forever to be where it is. Let Us go back over two thousand years ago, when and where human beings did not know what they know today, but even then, a cut hurt them physically and gave them fear of what it could be.

Today as I speak, I know It is different, but the human mind is ever conscious of what is right, what is wrong; what is pure, what is impure; what is just, what is unjust, and many more things.

The Love that was given at the time that The Son of The Creator walked the earth, was a Love for the future. It is read about a lot, but not fully seen in regards to *why* The Creator would give a Son and then have Him crucified. The reason, of course, is to let those who followed know that ***the mentalities of every human being are not always pure in how they think, how they respond, and how they answer to The Creator in all they do.***

This Gift, based on so much More than It is understood to those who read the Words, must see that ***this Gift, being put into print, is to awaken the mentalities to the Reality of The Divine;*** and also, that when the Rules, the Laws, the Commandments were given, there was *much more* to them. They have been stripped down through time for better learning, for more individuals to be able to remember the Important Points that they consisted of.

Let Me point out One: ***'Thou Shalt Not Commit Adultery'***. This Commandment is abused in many, many ways, because this Commandment is not seen for the multiple number of ways it can be abused, causing a lack of purity of the mind, the body, and abusing the Soul.

Another Commandment, of course, is: ***'Thou Shalt Not Kill'***. Everyone thinks, when they read this, it means to use a knife or an instrument of the time that is brutal to the body, thus destroying the mind also; but, there are many ways to kill, some easier than others: *scandal* that destroys the reputation of an individual; or *lies* that cause an individual to do things that they know they should not do, but are talked into because of the one talking, diminishing what it is all about.

Needless to say, every Commandment is More than it is written to be. There is more indepthness in the meaning, *more reality* to what could occur, besides that one word that speaks of only one

thing.

Needless to say, this is only the beginning of helping there to be more understanding of What is verbally spoken and/or put into print, regarding what a human being should understand more indepthly, than it is ever encouraged to do. They say, '*It is a sign of the times*'; **Not so**. It is innate in the human mind to want to know indepthly, many things, but there are those around who try very hard to shorten the Important Facts, because of what the facts could reveal.

Needless to say, I could spend hours on this subject, because the Gifts of the human mind, the Gifts of the human body, should all be looked at as *the means, the way, the help* that is used for the **benefit of one's Soul**, not just the ordinary occurrences, or responsibilities of the day.

I know I have spoken differently, but it is just the beginning of All there is to be said; hopefully, to give strength to the mentalities of millions of human beings, to stop taking things for granted, to stop not wanting to know what the **Future can be for the Soul they are created with, and that Portion of it that is to return to The Father, a 'Saint'**.

As I close My Words, The Father wants Me to say that ***in His Love for human life, He has given to it more understanding to help it be returned to Him a 'Saint'.***"
