

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON NOVEMBER 4, 2003 AT 12:43 P.M.

SAINT ANNA MARIA GORETTI

There are Several of Us present. I am Saint Anna Maria Goretti. When I hear My Name mentioned, I am immediately alert, even when My Name is thought about in a casual manner or a specific word.

The little one I speak through is more with Us than with you, because The Father's Will has declared it to be, because of the Importance of All that is delivered for the Souls of thousands and thousands and thousands of human beings.

Prayers, to most who speak in the natural way of living, say prayers by the words, not always because of their meaning.

Today as I speak, I speak Words to draw your attention to the fact that as you live in the human world, All the Saints Here in the Heavens are aware of you and, in many ways, participate in certain things you do, you accomplish, and you are pleased about.

The little instrument that is used by All Who are Here, speaks Our Words clearly, in the exact manner We deliver Them to be read, to be followed, and to be understood. ***Two worlds to be in so constantly is more than the human mind can perceive it to be,*** because one World speaks silently yet intentionally on subject matter for the good of the Souls of more than one individual. That is why so much is requested to be put into script, because the ones for whom the Messages are meant, are not always present, able to hear the Importance of the Message that is for them.

We hold the little one tightly, because the body is many times weary, due to the fact that so much is spoken through her that is not

put into script.

The world has been blessed in so many ways, instructing all ages of human beings regarding The Father's Will and the necessity in how individuals should live, constantly aware that everything they think, say and do, is heard, seen, regarding the intention, the purpose, and/or the goal.

I will close My Words, because What I have spoken is Important for those who read the Words to more fully understand ***what a close association every human being has to The Divine King.***

So many individuals say: *'I believe in God, but I do not pray. I know He reads my thoughts, sees what I do each day.'* This, of course, is an excuse, disregarding the Importance of prayer and how important it is to communicate in a way that draws attention to the facts, the figures, the subject matter, and the purpose for the communication to be seen to the degree that is necessary for it, in case there is any help needed.

As I close these Words, I close Them with great love for human life, because ***human life has a Goal beyond and above anything else created. The Goal is for that Portion of human life that is a Portion of The Creator called 'the Soul'.***
