

SAINT ATHANASIUS

“I am Saint Athanasius.

**H**eresies are present throughout the world. It is not a subject that is discussed for what it stands for and how much *danger* it is to many portions of human life.

***The value of what is good, sound, logical, and bears in it a consistent cause for justice, truth, is available, but not always sought after.***

**T**oday, as I speak, I speak from a Realm different than the one human life lives in, but it is important that all ages of human life understand and value the Beauty of a Goal that is talked about in many ways; ***that is a Goal for the future of the Souls of those who lived in the human way.***

**I**t is sad to hear a lack of understanding regarding that Gift of Divine Love that cannot be seen, cannot be heard, but It is, in Its Own Way *sensed*, through the sensitivity that a human being is born with, that is the natural instinct to feel a Presence you cannot see; also, an *innate feeling* regarding the Importance of truths, values, and what life was created to one day receive.

**W**hen I say *life*, I do not mean the body. I mean ***That Portion of life that is a Portion of the Creator, called ‘the Soul’.*** The Soul, in daily communication with the body, is consistently present, and is many times the *victim* of what an individual wrongly practices, in immoral actions or conditions of the flesh or the mind.

I could speak endlessly on this Important Subject, but My Words here today are meant to remind those who live the human life to never forget that ***in the creation of human life, The Creator of All Things places a Portion of Himself. It is a Protective Measure in many ways. It is called 'the Soul'.***
