

SAINT IGNATIUS LOYOLA

“I am Saint Ignatius Loyola.

The benefits of being born a human being are beyond what the human mentality fully understands, due to the fact that there are so many distractions in the lives of human beings, thus disallowing individuals to fully perceive that human life was created for a Time Greater than the mind understands to be.

In the creation of human life, it was The Father’s Will and Love for it that instilled into — and still does — human life, a Portion of Himself that, in many ways, gives to human life a more valuable understanding and a practical understanding that human life is above all other things created.

The Gifts in human life are multiple, the mentality and the ability to learn extensively on many subjects of great importance. The mentality alone allows a human life to more fully comprehend the Goal for which human life was created, basically in that the ***Future for human life is for a Portion of it called ‘the Soul’.***

The Soul, as a Portion of The Creator, is to be returned to The Creator; not all reasons known, but logic points to that the Future of the Soul, returning to from Who created It, will have a Life Beyond what human life could offer It.

That is why it is so important for the personality, the nature, the temperament, the logic and the human understanding of this Gift of Divine Love never be without thinking that ***there is a Goal to human life worth living for, living in a degree and way to help the Soul***

return to The Creator in a 'State of Divine Purity'. It is not impossible. It is a Gift that is obviously of the Greatest Measure of Divine Love that a human mind, body can understand It to be.

As humans live in the human way, there is much emphasis on what is called 'love', loving another individual; also, having the privilege to create, through the marriage state, a child who will one day be able to return to The Father 'a Saint'.

What I speak is not an ethereal suggestion of what life is all about. It is a ***Realistic Statement of Fact*** and should never be dismissed, thinking It was fictional rather than Divine Will, Divine Love and Divine Fact.

As I close My Words, I say to all of human life: ***There is a Goal Greater than you perceive It to be. There is no reasonable ability that a human mentality should ignore what they are capable of achieving as they live in the human Gift of Divine Love as a human being, for a Goal Greater than the human mentality can fully perceive It to be.***"
