

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

The Father, in His Love for human life, has requested that I speak to you today, and all who will read the Words at a later time, to better understand it is important that human beings of all ages, all backgrounds, *value* first the Gift of life, and then the Gift that there is a Future to a Portion of life, that Portion to be returned to The Father at a given time.

Though this Statement may be difficult for some individuals to understand, *a lack of under-standing oftentimes is an excuse for believing in the reality of what is Important for the Soul.*

Children throughout the world are not being instructed on *moral values* or on *the Goal* for which they were created to one day reach, *based on that Gift of Divine Love within them, the Soul.*

In many areas, all ages are walking in total confusion, because in trying to understand all that is going on in other places throughout the world, much is being passed over, even ignored, on the rational conditions that should be obvious for one's body and Soul.

The body in the human life is a Gift far greater than it is known to be, because *the body is the custodian of the Soul*, The Father's Love for this creation that is to be returned to Him, His Desire to make it a Saint forever and ever.

In so many ways, and in so many places, and so many interpretations regarding the factors of daily living and the purpose for human life, dwindles down to an *irrational understanding* because of the *confusion* that the human minds feel more confident in than the *facts*.

I could speak endlessly, and I know some who read these Words will want further explanations on What I have thus far spoken, but I assure you, when your will is based on the Importance of being a human being and the Goal for which you were created, there is a strength in this greater than you realize, because *The Father's Love for human lives is in the Soul that you are the custodian of, every day and every night.*

As I close these Words, there are Many Here with Me Who share all you think, all you feel, and all you care about, but please remember, *human life is a Gift of Divine Love. It isn't just being a human being, it has been given and instilled with an innate sensitivity that one day it will reach a Goal of Greatness that is in Divine Purity."*
