

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph.

It is Important that All that has thus far been delivered, be scattered in areas that you would not expect Them to be needed, but the Importance of the Wording is necessary to so many individuals who never think of spiritual actions or practices, because of their worldly practices in areas where they feel they are entitled to use their knowledge for a higher position, and a greater understanding from those who they associate with.

My Words are not quite what you would expect Me to speak, but basically, They are only a Lead to What I want you to understand, because as you live in the human way, so many things that occur are not seen for the worth they produce, or instruct, or cause greater aims to occur.

By the word ‘*aim*’, I mean *progress* in daily practices mentally, physically, for the benefit of so many who read the Words, but also, *who need the Words to see human life as a Gift*, rather than just based on practices with it, with what they enjoy doing, what they enjoy being thought about for themselves in the eyes of others.

As so many of Us speak through this Gift of Divine Love, it is for many reasons that so much is delivered on different Subjects, because human life, in many ways, is offered the exposure in all areas in which human life can participate, be part of, and act in a manner and way, not just feasible, but practical for the usefulness that an individual portrays.

What I am about to speak will be unusual for some to read, but it is Important sometimes to, in changing the Subject, it will give strength in a broader sense of understanding, and a broader scope of what the human mind and body can produce, be part of, or instruct others regarding the Importance of being a human being.

As I speak differently, I speak with Deep Understanding of the Importance for which human life has been gifted with.

Now, I would like to say some Words in another area in which all human minds should be aware of.

As there is a Divine Creator that designed so many places, things, thus *giving to human life the abilities to cover many subjects that life would be capable of using, practicing, and fulfill the needs of other human beings in a greater way, design and purpose, than would be expected to be.*

As I speak differently at this time, it is to encourage more steps of diversion in what you have begun to make a practice of. *The Blessings are abundant when you serve with such deep love, for the Souls of millions of people to learn more about the 'closeness' every human being has with The Divine."*
