

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON SEPTEMBER 13, 2004 AT 12:35 P.M.

SAINT ATHANASIUS

There are so Many here: Saint Bernadette, Saint Athanasius, Saint Veronica.

“What has just been spoken is solid truth. Each time The Father beckons Someone Here to speak, many of Us ask if We are the One, and He smiles and says, ‘We will take One at a time.’ I am Saint Athanasius.

You live in a time that will record history in a degree different in many ways. Each *time in history of human life*, the men, women and children present at these times are different than the next generation coming. Advancements in learning, in understanding, in motivation, and in the ability to recognize *progress*, gives strength to what an individual feels, thinks, and desires to specify in an order of conversations, and in the manner in which they live each day.

My Words may seem odd to some who will read Them, but *time* is a tremendous facet of the availability for many things to change: some of it is *progress*; some of it is to maintain the Spirit that is innately accepted; and the next one is to just take each day at a time and combine how one thinks with what one owns, or senses, or feels, or is close to.

How I am speaking is not usual, but it is to awaken many individuals to *the importance of time*, how it is accepted, and what is important *in the timing* that they are acquainted with.

If I take you back two thousand years, three thousand years, would I not be describing something different than you are used to,

that you understand, or that you feel comfortable with?

My Words, to some who will read Them, will be different, but it is important to remember: In the time the Apostles walked the earth and they talked to The Heavenly One, their clothing was different, their thoughts were different, and their human practices were different than how you are, but they can have a comparison in some way, some form, some degree.

I say these Words, because it is important for those who live now to fully understand that the *progress in time* still bears much of what it was like a long time ago. Human natures have grown in different ways; talents have multiplied in many individuals; the likes and the differences in how an individual speaks is called '*updated*' now.

So, as this Gift is and has been delivering so much, because in Divine Love there is a Love for human life Above and Beyond what It is understood as.

Everything has a growth to it. Everything has a purpose to it. Everything has a reason for it, and everything is done differently by human measures, human acceptances, and human intellects.

Many might wonder why I would talk like this, but it is to help all ages understand ***that to be created the human way is a Gift of Divine Plan, and in it there is Purpose, there is Goal***; more fully spoken about now than years before; more readily understood now, than time before, because the mentalities of human lives, in being able to look to what occurred before they were created, it gave purpose to changes, it gave more hope in being able to do things a little different perhaps, but they call it '*progress*'.

Just think about this next Statement I will make: When Adam

and Eve were created, could they have stood how you live now? Do not forget, they were alone. How could they respond to all the modernization? *Time gives light and enlightenment into what is available,* and always remember: ***Progress is good when it is properly handled.***”
