

OUR HEAVENLY FATHER

“I am your Heavenly Father.

We smile as this *little one* speaks Words that are, in many ways, not addressing the full matter, manner of purpose, that she wishes to be able to explain in her manner of speech.

Throughout the world, there are millions of human beings who would, in many ways, feel closer to The Divine if they were to kneel at certain times and speak to The Divine, or call on Any Saint that they choose to prefer over Others, because they feel that that Saint will understand their words, or even their dilemma in what they are about to take part in, or to be the leader of.

So much has been delivered in the Written Word so nothing is left to the memory of those who take the Words. *This alone is a Gift of Divine Love*, not always done by those who feel they are exceptional in how they discuss important projects, important circumstances, and a manner of getting through the mentality of those they desire to learn about how they feel in a spiritual avenue of living.

I speak this way today, to hopefully draw to an open manner of understanding that you, in your human way, must practice being able to speak to The Creator personally, and speak to Anyone Here in the Heavens that you desire to confide in, or to request help from.

Heaven was given a long, long time ago to human beings of

all ages, all degrees of intellect; because Heaven has so many Souls in It that you are *never* not heard. There is always Someone to give you the strength, the perseverance, or the ability to feel closer to The Divine in many ways, but you must remember: *The Divine is always present and available to hear you. Even though sometimes you do not receive a feeling of security in your human system of understanding, but you can be totally assured, you were heard, and you were answered in the degree, the way that was best for you.*

I smile when I say the next Words: All the Saints Here in the Heavens appreciate any communication that you call on Them for. It gives happiness, joy, and appreciation. When They see The Father, They say, *'Thank You, Heavenly Father, for this Gift that bestowed upon Me the Strength to appreciate more, being a Saint.'*
