

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

We All smile when The Father desires Us to speak Words understandable to those who are present and, hopefully, those who will read the Words that will be put into print because of the Importance of Them and the Aid the Words will be, guiding others to more fully understand the *privilege of human life* and the *beauty of the communication* it has with The Divine.

Children must become aware that every word they speak is heard, every act they take in life is seen, because *in the Creation of human life, a Gift of Divine Love is given*, first at the moment of conception, and then It is carried in an important way for that life’s protection and Divine Love that is instilled, constantly aiding the Soul and the body to more fully understand that *human life is a Portion of Divine Plan and it has a Goal for a Portion of it, their Soul.*

I know Many of Us Here repetitively speak Words that sometimes individuals do not understand the reason for It, but It is to strengthen the moral values, the spiritual values, and the growth of one’s mentality to more indepthly sense, accept that human life plays an important role. It is the *protector* for the Soul, it is the *guidance* for the Soul, and it should be based on *love for the Soul.*

For the average human being, it is not often understood how Important human life is. Only the surface is seen and recognized as there being nothing more important than what the human mind can practice or be the custodian of.

So Many of Us Saints are speaking more about the definition of things, because it is Important for the human mind to be able to perceive that human life has a Goal Greater than It is seen or known to be, but the very fact that there is a *Goal* speaks highly for human life, and that it is important for all it does while it is in the living state.

I could speak hours on end on this Gift, because through this Gift, the Soul is the *recipient* of all you think, say and do. *Your Soul is a Portion of The Creator of All Things, not just One or Two.*

I close and I say, ‘Those who take the Words are blessed abundantly, not always understood in its full measure, but those who have the *privilege* to read the Words, *the Words will help them think about the Importance of life and how much Divine Love is within each human life, along with a Portion of The Creator, a Soul.*”
