

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON DECEMBER 13, 2004 AT 12:35 P.M.

“The little one so Many of Us are requested to use when The Father Wills Important Messages to be transmitted so that others will learn more, or even much about different Subject Matter that the human mentality will gain from and will be better able to use for important situations, conditions, and basic understanding of what is morally correct, morally sound, feasible and/or justifiable.

So many times human mentality, human nature, human experience and human association is not seen for the worth it can be to others mentally, morally, socially, even mathematically.

One of the Greatest Gifts to human life was when ***the Words were allowed to be put into print and be read*** regarding the Subject Matter as Important to Some Portions, Some Facts that human beings would be able to grow in, grow from, and grow stronger about.

When you watch a child learn the ABC's, it is amazing how exciting this can be, because the learning state has much hope in it and guarantees that the individual will be able to read the written script that covers so many subjects that give to life strength, understanding, hope, and a need that is obviously present.

I know, for some, for Saints to be speaking in this Manner of Subject Preference or Understanding will be difficult for many, to wonder why the Saints would be chosen for such a task.

When a child is born, it takes one step at a time, usually by imitating the older ones present. Each step gives strength morally, mentally, physically, psychologically, but it instills in human life a

greater ability to associate important issues, conditions, situations, and associations.

I know to some My Words are not necessary, but My Words are to strengthen the understanding that is so basic to human life and yet can give hope when it is needed in many situations that do not openly say, *'This is for hope.'*

So Many Saints Here in the Heavens, in having lived all Their different lives, are happy to be able to give *Words* that can help those yet in the living state to more fully understand the *Importance of language*, because language to the human mentality is basically a *Gift of Divine Love*. It is a process of communication that other animals living have in a different way, definitely not as complete, but communication is an important fact, faction, factor of human life.

I could speak hours on this, but I know the Subject is best taught in this manner, or is used in a practical, communicative way.

I smile when I leave you at this time, but I also add to this smile: ***Never forget, The Father loves you."***
