OUR HEAVENLY MOTHER

“If All would have been said on this last Statement, it would have been difficult for anyone to take the Words in the Full Measure of how many Saints were standing at one time.

I am your Heavenly Mother.

It is beautiful when We hear Our Words come forth to aid all others who are present, to more fully understand We are always where human beings are. It is a privilege to serve The Creator in this way.

Children are important, but adults are also important, because in each human life there is a *Soul*, a Portion of The Creator Who designs all things, and yes, creates all things.

Today is not a day of what mankind would call exciting, interesting. It would only be to those who would be celebrating a specific event that brought them happiness, but for the average human being it could be a workday, or a day of causing themselves to get the records straight financially, emotionally, mentally, or even psychologically.

In the Creation of human life, The Heavenly Father thought of all facets connected to it that would give to human life energy, hope, understanding, and many advantages to becoming important in their way of life. Each human being has *the privilege*, and yes, *the possibility* to use what human life is gifted with, whether it be on speaking, learning, or giving hope to others that one meets.

Hope has many facets to it, many subjects in it, for it. Even a child has hope on a subject or a situation, even though it is not talked about or expressed. *Hope is one of the Greatest Gifts of Divine Love instilled into the mentality on many, many different subjects.*

Needless to say, so much could be spoken on addressing what human life is capable of being part of, or practicing, to give to each life of an individual. Everyone created has the ability to make it happy, or accept sadness; to make it worthwhile, this life that has so much Divine Love in it.

I could speak endlessly on this Subject, as All of Us could Here in the Heavens, but remember, those who take the Words and those who will read Them, there is always hope, and there is always Someone Here that will aid you, maybe not in an open manner, but in a very quiet way, giving you strength to persevere where it is needed. Never give up on perseverance, because there are always Several Here willing to help, willing to give you the chance. *All it takes is your willingness to say you care.*”
